From Apostle To Apostate The Story Of The Clergy Project:

From Apostle to Apostate Catherine Dunphy, Richard Dawkins, 2015-07-21 What happens when your entire life and career are constructed around a religious faith that you no longer possess Do you continue to promote a gospel that you have intellectually and emotionally rejected to maintain your livelihood and the support and respect you receive from your community Or do you renounce your faith to your congregation and the public at large putting yourself and your family at risk From Apostle to Apostate offers a comprehensive introduction to the Clergy Project established in 2011 to provide a safe space where clergy who have lost their faith can connect with others facing the exact same questions often alone and in isolation Charting the origins growth and goals of the project the book draws on the author's own experience as a founding project member and on interviews with its founders It also reveals the troubles and triumphs experienced by many of its members whose numbers have grown from just over 50 to more than 500 in a few short years As the book movingly demonstrates despite the substantial personal and professional challenges nonbelieving clergy face for many a loss of faith has turned out not to be a loss at all but a gain of newfound community self respect and honesty with themselves and others

The Messianic Apostasy Colin E Davis, 2022-01-06 The Messianic Apostasy A Synopsis of the Historical Deviation of Pauline Orthodoxy provides a reappraisal of early Pauline theology in the context of 1st century Palestine and the Hellenistic world in which Paul lived This scholarly text examines the heretical elements within St Paul's theology in the context of his contemporary Judaism and how the early Christian church of the first three centuries of the Common Era drew its influences from him Theological scholar Colin E Davis investigates the philosophical and religious zeitgeist of the period and Paul's eventual development of the concept of his Christ figure along possible Nazarean lines

The Rise and Fall of Faith Drew Bekius, 2017-07-01 The story of religion in the twenty first century West has been defined in part by the stories of once zealous pastors moving beyond their faith to embrace a life of reason But too often and too quickly ardent believers dismiss such accounts as aberrations and fail to consider the real life implications for those who make this transition Atheists and other skeptics meanwhile struggle to understand what took these individuals so long to make such a journey and why others aren't lining up more quickly to do the same As a result the questions posed by one side inevitably mirror those asked by the other Why do believers trust in God the way they do But what factors lead atheists to dismiss religious beliefs so easily How can believers have faith in the face of known science and history But what allows anyone to be so sure their beliefs are based in reality What would it take for believers to stop believing in God But what would it take for nonbelievers to start to believe Drawing on the author's own story as a former evangelical pastor powerless to stop his turn to atheism *The Rise and Fall of Faith* touches on these and other questions inviting readers into a long overdue conversation between Christians and atheists While the aim of the book is to initiate this much needed discussion the author encourages all who care about the future of humanity to carry the dialogue forward whether in the evaluation of our own inner thoughts in the assumptions we make

about the other side or in how we work together in the pursuit of understanding and common ground as we navigate the world's ever changing and increasingly challenging religious and cultural landscape

Caught in the Pulpit Daniel C. Dennett, Linda LaScola, 2015-05-01 What is it like to be a preacher or rabbi who no longer believes in God In this expanded and updated edition of their groundbreaking study Daniel C Dennett and Linda LaScola comprehensively and sensitively expose an inconvenient truth that religious institutions face in the new transparency of the information age the phenomenon of clergy who no longer believe what they publicly preach In confidential interviews clergy from across the ministerial spectrum from liberal to literal reveal how their lives of religious service and study have led them to a truth inimical to their professed beliefs and profession Although their personal stories are as varied as the denominations they once represented or continue to represent whether Catholic Baptist Episcopalian Methodist Mormon Pentecostal or any of numerous others they give voice not only to their own struggles but also to those who similarly suffer in tender and lonely silence As this study poignantly and vividly reveals their common journey has far reaching implications not only for their families their congregations and their communities but also for the very future of religion

Discovering Our World Paul Singh, John R. Shook, 2015-04-01 Where did everything come from Why are humans so biologically similar and why do we let small differences divide us What shall determine our destiny Paul Singh and John R Shook draw on the latest findings from the physical and biological sciences astronomy and cosmology geology and genetics and prehistory and archeology in search of answers As they lucidly and engagingly demonstrate the answers science gives about ourselves and the universe in which we live are incomparably more surprising and interesting than any mythical tale about some clash of titans or calculating creator Indeed science's proud journey of exploration and discovery is humanity's finest narrative yet about how we trusted our intelligence to find out what we really are and who we can be intrepidly going wherever the evidence led Even though science reveals that humanity may have no special place in the universe humanity is truly special because of our ability to comprehend our universe Thus this inspiring story of exploration and discovery is a celebration not only of science of science's knowledge of the world and of science's own journeys to gain that knowledge but also of ourselves

Weirdness! Taner Edis, 2021-11-09 In a world where science faces challenges from creationists and climate change deniers and where social media is awash with wild conspiracy theories it is no longer enough for scientists pundits and activists to simply ask the public to trust science Rather all must better understand how science works and why science is essential By exploring many of the odd beliefs embraced by large sections of the public that are rejected by the scientific mainstream Weirdness makes a case for science that goes beyond popular slogans It takes seriously claims that paranormal phenomena such as psychic abilities and mythical creatures might be real but demonstrates how such phenomena would extend beyond the laws of nature It rejects a sharp boundary between science and religion while explaining how to negotiate their real differences Denials of science cause no end of trouble but so too does placing blind trust in science As Weirdness reminds readers

science should not be seen as a mechanism that takes in data and spits out truth indeed what we get wrong about how the world works is often as interesting as what we get right **Books do Furnish a Life** Richard Dawkins, 2021-05-06 A rich feast of his essays reviews forewords squibs and conversations in which talent and passion are married to deep knowledge Matt Ridley Enjoy the unfailing clarity of his thought and prose as well as the grandeur of his vision of life on Earth Mark Cocker Spectator Richard Dawkins is a thunderously gifted science writer Sunday Times Including conversations with Neil DeGrasse Tyson Steven Pinker Matt Ridley and more this is an essential guide to the most exciting ideas of our time and their proponents from our most brilliant science communicator Books Do Furnish a Life is divided by theme including celebrating nature exploring humanity and interrogating faith For the first time it brings together Richard Dawkins forewords afterwords and introductions to the work of some of the leading thinkers of our age Carl Sagan Lawrence Krauss Jacob Bronowski Lewis Wolpert with a selection of his reviews to provide an electrifying celebration of science writing both fiction and non fiction It is also a sparkling addition to Dawkins own remarkable canon of work Plenty of other scientists write well but no one writes like Dawkins here is Dawkins the teacher the scholar the polemicist the joker the aesthete the poet the satirist the man of compassion as well as indignation the slayer of superstition and above all the scientist Areo Magazine **The Apostate and the Convert** Don Matzat, 2018-03-13 The Gospel of Jesus Christ the proclamation of Christ crucified is the defining message of Christianity Without the Gospel there is no Christian faith The Apostle Paul defined the Gospel as the power of God for salvation This is the story of two men One a pastor who rejected the Gospel and replaced it with a feel good message giving people what they wanted to hear He was an apostate He rejected the defining message of the Christian faith and replaced it with another The other a rude insolent police detective totally ignorant of the Gospel Their paths crossed and by an unlikely intervention they came to faith **Paul and Apostasy** B. J. Oropeza, 2000 B J Oropeza presents the concepts of apostasy and perseverance in the light of recent interpretative and intertextual methods He argues that the Pauline messages include warnings to congregation members who are in danger of falling away Paul often considers these members to be authentic converts to the early Christian message A prime example of this is presented in the apostle s use of the Exodus wilderness traditions in 1 Corinthians 10 1 13 In an effort to persuade the members against apostasy Paul echoes examples from the Jewish traditions regarding Israel s divine election and punishments The Corinthians are exhorted not to conduct themselves in a manner that parallels the Israelites who after crossing the Red Sea were rejected by God in the wilderness because they committed vices If the Corinthians commit the same vices in their own spiritual journey they will suffer divine judgment before the culmination of the eschaton This language is located within larger rhetorical arguments related to the problems of meat sacrificed to idols congregational factions and eschatological misperceptions B J Oropeza also deals with theological perspectives associated with the perseverance of the saints including the Calvinist and Arminian traditions He thus provides a compelling alternative approach to the theological controversy **Apostolic Succession** David W. T.

Brattston,2020-04-15 This book is the first in generations to examine writers in the early church in order to ascertain the original Christian intent as to how early Christian clergy were chosen their powers and responsibilities and the methods of placing people in church office and displacing them This book demonstrates what the first writers meant when they advocated apostolic succession the scope of authority particular church officers would possess and how their authority would be transmitted Besides concentrating on writings in the first to third centuries AD this book draws on later material to question the assertions made today for bishops claiming apostolic succession It reveals they are contrary to early church thought that the doctrine or theory of apostolic succession cannot be proved and does not work in practice even in our own day This publication is rare in the field of Christian scholarship in that it challenges the fundamental claims that diocesan bishops do or can trace their lines of ordinations back to the apostles This unusual book will comfort many and disquiet many and surprise all because it investigates what many assume without solid proof to be the bedrock of church authority

Apostate Kevin Swanson,2018-01-15 Whatever happened to Western civilization Christians have lost ground in every cultural area of leadership and influence in Europe and America since 1700 This is an indubitable fact The remaining Christians search for an explanation They want to know how it happened Apostate story of the decline and fall of Western civilization as experienced through the lives and ideas of the great philosophers writers and cultural leaders most responsible for its demise Apostate is a story of demonic possession insanity suicide mass murder adultery homosexuality cultural and social revolutions and unbridled maniacal apostasy It is the story of apostasy on a massive scale But it is also a story of hope and victory for the last men standing in the ashes of Western civilization It will be a testimony to the inevitable triumph of Jesus Christ over the great men of renown who tried to oppose the King of kings and Lord of lords This second edition of *Apostate* has been revised and expanded from the first edition This new edition contains a new chapter on the influential economist John Maynard Keynes *The Apostate Church* Monica Bennett-Ryan,2025-08-14 LOOK BOTH WAYS When a mother tells her child to look both ways before crossing the street it s not because she doesn t want her child to cross the street She is not anti street or anti crossing It is a simple warning given to keep her child safe This book is written with that attitude The logo on the front of this book is the symbol of the Roman Empire responsible for the torture and death of Christ and the brutal persecution of his followers that lasted for hundreds of years When persecution failed to stop them Constantine decided to use The Way of Christ to his advantage State controlled religion was born The basis of the new pseudo religion that Constantine called Christianity was apostasy which evolved into denominationalism In contrast the command Christ gave all his followers to allow His Spirit to do the work of ministry has never been rescinded These two opposing ideologies present an inevitable choice for everyone who aspires to be a Christian Will you serve denominationalism or Christ ABOUT THE AUTHOR Monica Bennett Ryan is an Australian Defence Whistleblower and award winning Christian author You can see more about her work on her website www.inhisname.com.au *The Great Apostasy* James E
