Proactive Law for Managers George Siedel, Helena Haapio, 2016-04-22 Savvy managers no longer look at contracts and the law reactively but use them proactively to reduce their costs minimize their risks secure key talent collaborate to innovate protect intellectual property and create value for their customers that is superior to that offered by competitors To achieve competitive advantage in this way managers need a plan *Proactive Law for Managers* provides this plan The Manager's Legal Plan™ George Siedel and Helena Haapio first discuss the traditional reactive approach used by many managers when confronted with the law then contrast it with a proactive approach that enables the law and managers legal capabilities to be used to prevent problems promote successful business and achieve competitive advantage *Proactive Law for Managers* shows how to use contracts and the law to create new value and innovate in often neglected areas and implement ideas in a profitable manner

Patent Management and Valuation Grid Thoma, 2016-06-23 Research on patent valuation has become increasingly important in academic and policy circles in the last few decades In part this is the outcome of the wide consensus that innovation is a crucial ingredient for growth at various levels On the other hand there has also been an overcoming of growth models unilaterally focused on technological oriented approaches This book presents novel and original research on patent value determinants which are intrinsic or extrinsic to the innovator's business model Grid Thoma has undertaken a long study on the strategic factors affecting patent valuation bringing extensive quantitative evidences across various geographical and institutional contexts Beforehand the valuation of the patent real options is appraised when the innovator can postpone the additional investment required for the patent's successful exploitation Then he analyses what other complementary IP strategies are combined with patenting that in turn directly affect the value of patents Moreover the book scrutinizes the so called strategic patenting hypothesis according to which innovators obtain patents for other reasons beyond gaining IP protection A second order of strategic factors affecting

the value of patents resides at the outset of the invention process These are constituted by knowledge spillovers which are typically mediated by the local geographical context where the invention process takes place The analysis shows that the contribution of knowledge spillovers from business and nonbusiness organizations to the value of the patented R D constitutes a relevant aspect for an innovator s decision making This thoughtful cutting edge research book is vital reading for researchers academics and policy decision makers in the area of in market valuation management of technology innovation management and economic geography

Trademarks and Their Role in Innovation, Entrepreneurship and Industrial Organization Carolina Castaldi,Jörn Block,Meindert J. Flikkema,2021-06-14 Trademarks are the most widely used intellectual property right by companies worldwide Their strategic importance is increasing as reputational assets become more relevant for companies than ever in national and global markets Trademarks also represent key tools for companies to profit from innovation and can make the difference for start ups and entrepreneurial firms by allowing them to gain legitimacy and fostering fund raising from investors This book Trademarks and Their Role in Innovation Entrepreneurship and Industrial Organization takes stock of the emerging academic research on how companies use trademarks It collects a rich set of contributions from several research perspectives and disciplines and proposes an integrated view bridging different levels of analysis individual firm industry and country level Specifically the book combines an industrial organization innovation and entrepreneurship perspective to understand why when and with what effects entrepreneurs innovators and firms use trademarks The book is targeted toward academic readers to gain a better understanding of the emerging and interdisciplinary field of trademark research as well as interested practitioners from the area of intellectual property IP management and policy making The chapters in this book were originally published in Industry and Innovation
