From Bullets To Ballots Violent Muslim Movements In Transition:

From Bullets to Ballots David L. Phillips, 2011-12-31 *From Bullets to Ballots* considers non state Muslim organizations at different stages of abandoning violence and pursuing their goals through a political process Some have successfully made the transition Others are in mid stream Some have tried but backtracked splintered or simply abandoned such efforts reverting to pathological violence Many groups could be case studies but Phillips has selected the Muslim Brotherhood of Egypt Hamas Hezbollah the Kurdistan Workers Party the Jammu and Kashmir Liberation Front and the Free Aceh Movement because they cover the spectrum This book deals with political strategies for moderating violent Muslim movements by engaging them in the political process In strong criticism of the Bush administration Phillips notes that the push for democracy may have increased conflict by giving violent groups the ballot which they use to gain power Focusing on non state Muslim organizations *From Bullets to Ballots* considers the relationship between ideology and policy Phillips discusses their origin ideology structure and leadership and examines financing activities and communications He assesses the groups commitment to elections and its acceptance of the responsibility that comes with governance *From Bullets to Ballots* draws on twenty years of Phillips experience working democratization and conflict prevention in the Middle East the Balkans the Caucasus and South Asia His recommendations are primarily directed to the United States because he believes the United States should be a leader in promoting democracy around the world At the same time he is convinced that the United States must tread softly or run the risk of fomenting further violence undermining future democratic development and setting back its own national interests This is a provocative informed and balanced analysis of the theories behind current policies

Faith in Politics Bryan T. McGraw, 2010-06-10 No account of contemporary politics can ignore religion The liberal democratic tradition in political thought has long treated religion with some suspicion regarding it as a source of division and instability *Faith in Politics* shows how such arguments are unpersuasive and dependent on questionable empirical claims rather than being a serious threat to democracies legitimacy stability and freedom religion can be democratically constructive Using historical cases of important religious political movements to add empirical weight Bryan McGraw suggests that religion will remain a significant political force for the foreseeable future and that pluralist democracies would do well to welcome rather than marginalize it *Islamism and Social Movements in North Africa, the Sahel and Beyond* Aurelie Campana, Cédric Jourde, 2018-12-07 As North African Middle Eastern and Sahelian societies adapt to the post Arab Spring era and the rise of violence across the area various groups find in Islam an answer to the challenges of the era This book explores how Islamist social movements Sufi brotherhoods and Jihadi armed groups in their great diversity elaborate their social networks and recruit sympathizers and militants in complicated times The book innovates by transcending regional boundaries bringing together specialists of the three aforementioned regions First it highlights how geographically dispersed religious groups define themselves as members of a larger universal Umma while evolving in deeply embedded

local contexts Second its contributors prioritize in depth fieldwork research offering fine grained original insights into the manifold mobilization of Islamist inspired social movements in Egypt Libya Tunisia Mali Senegal Mauritania Burkina Faso and Western Europe The book sheds light on the tense debates and competition taking place amongst the different trends composing the Islamist galaxy and between other groups that also claim an Islamic legitimacy including Sufi brotherhoods and ethnic and or tribal groups as well This book was originally published as a special issue of Mediterranean Politics

Violence, Elections, and Party Politics Mary Beth Altier, Susanne Martin, Leonard B. Weinberg, 2016-03-16 As the United States and the countries of Western Europe have sought to promote democratic rule in those parts of the world that have not enjoyed the blessings of liberty they have failed to consider an important factor Competitive elections the sine qua non of democratic government often gives rise to serious bouts of political violence mob riots inter party fighting and internal wars The essays collected in this volume evaluate the relationship between terrorist activity and electoral politics Do democratic elections themselves undermine the development and stability of the democratic institutions the United States and its allies seek to promote Under what conditions are democratic elections effective at bringing terrorist organizations into the political process thereby quelling violence When and how might terrorist organizations use democratic elections to foment violence

This book was published as a special issue of Terrorism and Political Violence **Power Struggles in the Middle East** Eva Dingel, 2016-11-30 Who are the Muslim Brotherhood and Hizbullah What do the two movements one Sunni and one Shi a have in common Despite being classified by a number of countries as terrorist organisations both are in fact serious political players in the states in which they operate Egypt and Lebanon Both have at various points advocated pan Islamism the unity of Muslims under an Islamic state or caliphate but rather than considering them as extremist religious movements Eva Dingel here studies them as players within the political process She considers why at certain points they have chosen to play by the conventional political rules while during other periods they have applied different more extreme methods of political protest Dingel s comparative history of two of the most prominent political Islamist movements sheds light on the complex and often misunderstood interaction between Islam and politics in the Middle East This book is essential reading for anyone who wants to understand the changing dynamics of politics in the Islamic world Nationalism, Transnationalism, and Political Islam

Mohanad Hage Ali, 2017-09-07 This book sheds light on how Hizbullah has transformed religious rituals and supernatural narratives in order to mobilize the Shi a community The author examines how Hizbullah has altered its institutional structure and reconstructed Lebanese Shi a history in a manner similar to that of nationalist movements Through fieldwork and research the project finds that Hizbullah has centralized around the concept of Wilayat al Fagih Gaurdianship of the Islamic Jurists in essence the absolute authority of Iran s Supreme Leader over the Shi a nation
