From Book To Screen From Book To Screen:

Adapting Endings from Book to Screen Armelle Parey, Shannon Wells-Lassagne, 2019-09-09 This book offers a new perspective on adaptation of books to the screen by focusing on endings new light is shed on this key facet of film and television studies The authors look at a broad range of case studies from different genres eras countries and formats to analyse literary and cinematic traditions technical considerations and ideological issues involved in film and television adaptations The investigation covers both the ideological implications of changes made in adapting the final pages to the screen as well as the aesthetic stance taken in modifying or on the contrary maintaining the ending of the source text By including writings on both film and television adaptations this book examines the array of possibilities for the closure of an adapted narrative focusing both on the specificities of film and different television forms miniseries and ongoing television narratives and at the same time suggesting the commonalities of these audiovisual forms in their closing moments *Adapting Endings from Book to Screen* will be of interest to all scholars working in media studies film and television studies and adaptation studies

Adaptations Deborah Cartmell, Imelda Whelehan, 2013-06-17 *Adaptations* considers the theoretical and practical difficulties surrounding the translation of a text into film and the reverse process the novelisation of films Through three sets of case studies the contributors examine the key debates surrounding adaptations whether screen versions of literary classics can be faithful to the text if something as capsulated as Jane Austens irony can even be captured on film whether costume dramas always of their own time and do adaptations remake their parent text to reflect contemporary ideas and concerns Tracing the complex alterations which texts experience between different media *Adaptations* is a unique exploration of the relationship between text and film

Comic Book Film Style Dru Jeffries, 2017-09-05 Superhero films and comic book adaptations dominate contemporary Hollywood filmmaking and it is not just the storylines of these blockbuster spectacles that have been influenced by comics The comic book medium itself has profoundly influenced how movies look and sound today as well as how viewers approach them as texts *Comic Book Film Style* explores how the unique conventions and formal structure of comic books have had a profound impact on film aesthetics so that the different representational abilities of comics and film are put on simultaneous display in a cinematic work With close readings of films including *Batman The Movie* *American Splendor* *Superman* *Hulk* *Spider Man 2* *V for Vendetta* *300* *Scott Pilgrim vs the World* *Watchmen* *The Losers* and *Creepshow* Dru Jeffries offers a new and more cogent definition of the comic book film as a stylistic approach rather than a genre repositioning the study of comic book films from adaptation and genre studies to formal stylistic analysis He discusses how comic book films appropriate comics drawn imagery vandalize the fourth wall with the use of graphic text dissect the film frame into discrete panels and treat time as a flexible construct rather than a fixed flow among other things This cinematic remediation of comic books formal structure and unique visual conventions Jeffries asserts fundamentally challenges the classical continuity paradigm and its contemporary variants placing the comic book film
