The 2011 Guide to Free Or Nearly-Free E-Books, 2011 One of the problems which face all librarians adding e books to their collections is that of bibliographic control there is no legal deposit for e books and consequently there is no single place from which new titles can be found If this is true of commercially published e books it is most certainly also true of free e books and there are many thousands of free e books available over the Internet many of which are of a quality such that librarians might wish to have them in their collections The 2011 Guide to Free or Nearly Free e Books is offered as a tool for librarians and others involved in book selection e g teachers in schools in all sectors school further and higher education public and special libraries to facilitate easy access to free e books and e book collections which can enhance their digital library

Caught between the Lines Carlos Riobó, 2019-04-01 Caught between the Lines examines how the figure of the captive and the notion of borders have been used in Argentine literature and painting to reflect competing notions of national identity from the nineteenth to the twenty first centuries Challenging the conventional approach to the nineteenth century trope of civilization versus barbarity which was intended to criticize the social and ethnic divisions within Argentina in order to create a homogenous society Carlos Riob traces the various versions of colonial captivity legends He argues convincingly that the historical conditions of the colonial period created an ethnic hybridity a mestizo or culturally mixed identity that went against the state compulsion for a racially pure identity This mestizaje was signified not only in Argentina s literature but also in its art and Riob thus analyzes colonial paintings as well as texts Caught between the Lines focuses on borders and mestizaje both biological and cultural as they relate to captives specifically how captives have been used to create a national image of Argentina that relies on a logic of separation to justify concepts of national purity and to deny transculturation
