Working class immigration religion and labor history in the United States At the turn of the twentieth century thousands of immigrants from the borderlands of the Russian and Austro Hungarian Empires built a transnational church in North America The community that church leaders called American Orthodox Rus was created by and for working people and transformed believers identities as Eastern European migrants as Orthodox Christians and as American workers Given how strongly the Russian Orthodox Christian community was tied to working class industrial life this book makes the case that we cannot understand the scope of working class and immigrant religion in the United States without understanding American Orthodox Rus The work Russian Orthodox immigrants did in the Progressive Era United States occurred in factories foundries and mines they lived mainly in industrial cities and mining towns and they almost immediately got caught up in the most pivotal and sometimes violent political and social crises of their times both nationally and internationally To address their needs in these contexts the Russian Orthodox Church expanded its missionary efforts in North America forming a network of social and material aid for working class believers This book traces the rapid growth of this transnational religious world then explores its unexpected collapse under the weight of the First World War a global pandemic and the transnational reach of revolutionary political change in Russia A story of challenge and resilience *Orthodoxy on the Line* complicates dominant paradigms in the study of labor and North American Religions **Presbyterian Banner** ,1908
