Giving 20 Transform Your Giving And Our World:

Giving 2.0 Laura Arrillaga-Andreessen, 2011-10-25 Gold Medal Winner Philanthropy Charities and Nonprofits 2012 Axiom Business Book Awards Giving 2.0 is the ultimate resource for anyone navigating the seemingly infinite ways one can give. The future of philanthropy is far more than just writing a check and Giving 2.0 shows how individuals of every age and income level can harness the power of technology, collaboration, innovation, advocacy, and social entrepreneurship to take their giving to the next level and beyond. Major gifts may dominate headlines, but the majority of giving still comes from individual households: ordinary people with extraordinary generosity. Even in 2009, at a time of deep recession, individual giving averaged almost \$2,000 per household and drove 82% of the \$300 billion donated that same year. Based on her vast experience as a philanthropist, academic, volunteer, and social innovator, Arrillaga-Andreessen shares the most effective techniques she herself pilots and studies, and a vast portfolio of lessons learned during her lifetime of giving. Featuring dozens of stories on innovative and powerful methods of how individuals give time, money, and expertise, whether volunteering and fundraising, leveraging technology and social media, starting a giving circle, fund, foundation, or advocacy group, or aspiring to create greater social impact, Giving 2.0 shows readers how they can renew, improve, and expand their giving and reach their fullest potential. A practical, entertaining, and inspiring call to action, Giving 2.0 is an indispensable tool for anyone passionate about creating change in our world.

Billionaires Darrell M. West, 2014-09-18 Meet the Billionaires: the 1,645 men and women who control a massive share of global assets worth \$6.5 trillion. Darrell West reveals what the other 99.99998% of us need to know. With rich anecdotes and personal narratives, West goes inside the world of the ultra-wealthy. Meet U.S. billionaires such as Sheldon Adelson, Michael Bloomberg, David and Charles Koch, George Soros, Tom Steyer, and Donald Trump, as well as international billionaires from around the globe. The growing political engagement of this small, supra-wealthy group raises important questions about influence, transparency, and government performance, and West lays bare the wealthification of politics, including how billionaires can block appointments and legislation they don't like. Why the supra-wealthy moved into policy, advocacy, and referenda at the state level. Why billionaires run for office in more than a dozen countries around the world.

International Studies Sheldon Anderson, Mark Allen Peterson, Stanley W. Toops, Jeanne A.K. Hey, 2014-07-08 This core text is the first to provide a much-needed interdisciplinary approach to international studies. Emphasizing the interconnected nature of history, geography, anthropology, economics, and political science, International Studies details the methodologies and subject matter of each discipline, then applies these discipline lenses to seven regions: Europe, East Asia, and the Pacific, South and Central Asia, sub-Saharan Africa, the Middle East, and North Africa, Latin America, and North America. This disciplinary and regional combination provides an indispensable cohesive framework for understanding global issues. The fully updated fourth edition includes four new global issues chapters: The Refugee Crisis in Europe, The Syrian Civil War, and the Rise of the Islamic State, Global Climate Change, and The Globalization of Modern Sports.
