Achieving Zero Hunger Food and Agriculture Organization of the United Nations,2018-06-05 This report provides estimates of investment costs both public and private required to eliminate chronic dietary energy deficits or to achieve zero hunger by 2030 This target is consistent with achieving both the Sustainable Development Goal 2 to eliminate hunger by 2030 and the Sustainable Development Goal 1 to eradicate poverty The report adopts a reference baseline scenario reflecting a business as usual situation to estimate the additional investment requirements In this scenario around 650 million people will still suffer from hunger in 2030 The investment requirements to eliminate hunger by 2030 are then estimated Hunger is eliminated through a combination of social protection and targeted pro poor investments The first component aims to bring the poor immediately above the extreme poverty line through social protection by a transfer to cover the poverty gap PGT The second component involves additional investment required to stimulate and to sustain higher pro poor growth of incomes and employment than in the business as usual scenario This would in turn reduce the need for social protection to cover the PGT The analysis is complemented by looking at alternative ways to achieve zero hunger by 2030

Social Programmes, Poverty Eradication and Labour Inclusion Laís Wendel Abramo,Simone Cecchini,Beatriz Morales,2019 Diverse social programmes including conditional cash transfer programmes labour and production inclusion programmes and social pensions are being implemented in Latin American and Caribbean countries with the aim of ending poverty and reducing inequalities throughout the life cycle This book offers an up to date analysis of these programmes and the way they relate to labour inclusion and analyses ongoing debates regarding the possible incentives and disincentives they

create in terms of the labour supply formalization and child labour among the target population Considering that poverty is a structural problem of highly unequal societies the thesis that poverty is due to a lack of effort on the part of the poor is argued to be an expression of the strong prejudice against those living in poverty the great majority of whom work or are actively seeking employment but are hampered by the large decent work deficits existing in the region From an integrated and rights based perspective public policies should simultaneously address the twofold challenge of social and labour inclusion in order to achieve basic thresholds of well being by ensuring income universal access to good quality social services and opportunities for decent work *Parliamentary Debates* India.
