Original source notes are included with each chapter as guides to further reading and numerous maps provide an essential sense of place. The book also includes a glossary of terms and a register of brief biographies of significant persons.

*Libya in the Arab Spring* Ramazan Erdağ, 2017-03-22 By examining Libya's security architecture before and after the North Atlantic Treaty Organization (NATO) intervention in 2011, this book aims to answer three questions: First, what were the security patterns in Libya within the Middle East security complex before the Arab Spring? Second, to what extent did the Arab Spring and the revolution and intervention processes in Libya affect this security architecture? And third, what are the implications of the Libyan revolution and the NATO intervention on regional security and on the security sub-complexes of the Middle East in the post-Arab Spring era? The author addresses these issues by providing a micro-level analysis of amity-enmity patterns, power distribution, and external power interests.

**North Africa, Revised Edition** Phillip Naylor, 2015-01-15 North Africa has been a vital crossroads throughout history, serving as a connection between Africa, Asia, and Europe. Paradoxically, however, the region's historical significance has been chronically underestimated. In a book that may lead scholars to reimagine the concept of Western civilization, incorporating the role North African peoples played in shaping the West, Phillip Naylor describes a locale whose transcultural heritage serves as a crucial hinge politically, economically, and socially. Ideal for novices and specialists alike, *North Africa* begins with an acknowledgment that defining this area has presented challenges throughout history. Naylor's survey encompasses the Paleolithic period and early Egyptian cultures, leading readers through the pharaonic dynasties, the conflicts with Rome and Carthage, the rise of Islam, the growth of the Ottoman Empire, European incursions, and the postcolonial prospects for Egypt, Libya, Tunisia, Algeria, Morocco, and Western Sahara. Emphasizing the importance of encounters and interactions among civilizations, *North Africa* maps a prominent future for scholarship about this pivotal region. Now with a new afterword that surveys the North African Spring uprisings that roiled the region from 2011 to 2013, this is the most comprehensive history of North Africa to date, with accessible in-depth chapters covering the pre-Islamic period through colonization and independence.

*Making the New Middle East* Valerie J. Hoffman, 2019-02-28 Demands for freedom, justice, and dignity have animated protests and revolutions across the Middle East in recent years, from the Iranian Green Movement and the Arab Spring uprisings to Turkey's March for Justice and the ongoing struggle in Palestine. Although expectations raised by the Arab Spring were largely disappointed and protests that toppled entrenched rulers unleashed vicious counterrevolutionary forces, there is no doubt that the landscape of the Middle East has changed. Drawing from diverse disciplines, this volume offers critical perspectives on these changes, covering politics, religion, gender dynamics, human rights, media, literature, and music. What ultimately has changed in

the new Middle East Who are the actors pushing the direction of change How are aspirations for change being expressed through media and the arts With extensive analysis and thoughtful reflection this book gives readers an in depth portrayal of a modernizing Middle East *Arab Human Development in the Twenty-first Century* Bahgat Korany,2014-10-01 With its emphasis on the primacy of change this study arrives at a particularly auspicious moment as the Middle East continues to be convulsed by the greatest upheavals in generations which have come to be known as the Arab Spring Originally prepared as the tenth anniversary volume of the UNDP s Arab Human Development Report Arab Human Development in the Twenty first Century places empowerment at the center of human development in the Arab world viewing it not only from the vantage point of a more equitable distribution of economic resources but also of fundamental legal educational and political reform The ten chapters in this book follow closely this political economy framework They look back at what Arab countries have achieved since the early 2000s and forward to what remains to be done to reach full development Supported by a wealth of statistical material they cover the rule of law the evolution of media the persistence of corruption the draining of resources through armed conflict the dominance and increase of poverty the environment and religious education The concluding chapter attempts an inventory of the world literature and different experiences on democratic transition to explore where the region could be heading This critical and timely study is indispensable reading to development specialists and to Middle East scholars and students alike as well as to anyone with an interest in the future trajectory of the region
