GIs And Fruleins The German American Encounter In 1950s West Germany:

American Military Communities in West Germany John W. Lemza, 2016-05-13 On April 28 1946 a small group of American wives and children arrived at the port of Bremerhaven West Germany the first of thousands of military family members to make the trans Atlantic journey They were the basis of a network of military communities Little Americas that would spread across the postwar German landscape During a 45 year period which included some of the Cold War s tensest moments their presence confirmed America s resolve to maintain Western democracy in the face of the Soviet threat Drawing on archival sources and personal narratives this book explores these enclaves of Americanism from the U S government s perspective to the grassroots view of those who made their homes in Cold War Europe These families faced many challenges in balancing their military missions with their daily lives during a period of dynamic global change The author describes interaction in American communities that were sometimes separated sometimes connected with their German neighbors GIs and Fräuleins Maria Höhn, 2003-04-03 With the outbreak of the Korean War the poor rural West German state of Rhineland Palatinate became home to some of the largest American military installations outside the United States In GIs and Frauleins Maria Hohn offers a rich social history of this German American encounter and provides new insights into how West Germans negotiated their transition from National Socialism to a consumer democracy during the 1950s Focusing on the conservative reaction to the American military presence Hohn shows that Germany s Christian Democrats though eager to be allied politically and militarily with the United States were appalled by the apparent Americanization of daily life and the decline in morality that accompanied the troops to the provinces Conservatives condemned the jazz clubs and striptease parlors that Holocaust survivors from Eastern Europe opened to cater to the troops and they expressed scorn toward the German women who eagerly pursued white and black American GIs While most Germans rejected the conservative effort to punish as prostitutes all women who associated with American GIs they vilified the sexual relationships between African American men and German women Hohn demonstrates that German anxieties over widespread Americanization were always debates about proper gender norms and racial boundaries and that while the American military brought democracy with them to Germany it also brought Jim Crow Entangling Alliances Susan Zeiger, 2010-03-01 Throughout the twentieth century American male soldiers returned home from wars with foreign born wives in tow often from allied but at times from enemy nations resulting in a new official category of immigrant the allied war bride These brides began to appear en masse after World War I peaked after World War II and persisted through the Korean and Vietnam Wars GIs also met and married former enemy women under conditions of postwar occupation although at times the US government banned such unions In this comprehensive complex history of war brides in 20th century American history Susan Zeiger uses relationships between American male soldiers and foreign women as a lens to view larger issues of sexuality race and gender in United States foreign relations Entangling Alliances draws on a rich array of sources to trace how war and postwar anxieties about power

and national identity have long been projected onto war brides and how these anxieties translate into public policies particularly immigration

Continued Violence and Troublesome Pasts Ville Kivimäki, Petri Karonen, 2017-05-23 In most European countries the horrific legacy of 1939-45 has made it quite difficult to remember the war with much glory. Despite the Anglo-American memory narrative of saving democracy from totalitarianism and the Soviet epic of the Great Patriotic War, the fundamental experience of war for so many Europeans was that of immense personal losses and often meaningless hardships. The anthology at hand focuses on these histories between the victors on the cases of Hungary, Estonia, Poland, Austria, Finland, and Germany, and on the respective often gendered experiences of defeat. The book's chapters underline the asynchronous transition to peace in individual experiences when compared to the smooth timelines of national and international historiographies. Furthermore, it is important to note that instead of a linear chronology, both personal and collective histories tend to return back to the moments of violence and loss, thus forming continuous cycles of remembrance and forgetting. Several of the authors also pay specific attention to the constructed and contested nature of national histories in these cycles. The role of these in between countries and even more their peoples' multifaceted experiences will add to the widening European history of the aftermath, thereby challenging the conventional dichotomies and periodisations. In the aftermath of the seventieth anniversary of 1945, it is still too early to regard the post-war period as mere history; the memory politics and rhetoric of the Second World War and its aftermath are again being used and abused to serve contemporary power politics in Europe.

entwickelte Hermann Broch eine ethisch argumentierende Ästhetik für die der Doppelaspekt von neuer Erkenntnis und neuer Form bezeichnend war. Das immer wieder anders gelagerte Zusammenspiel von Ethik und Ästhetik kann nur in Einzeluntersuchungen verdeutlicht werden. Um solche Detailstudien zur deutschen Gegenwartsliteratur geht es in diesem Band. Im Mittelpunkt stehen Werke von acht Autorinnen und Autoren. Durs Grünbein, Barbara Honigmann, Angela Krauß, Peter Schneider, Arnold Stadler, Yoko Tawada, Hans Ulrich Treichel und Ulf Erdmann Ziegler. Sie steuern Poetikvorlesungen und Stellungnahmen bei, in denen sie den Spannungsbogen zwischen Ethik und Literatur skizzieren. Bei gleicher Fragestellung werden Werke dieser acht Schriftsteller von Kritikern und Germanisten analysiert und interpretiert.

WerkstattGeschichte, 1992 Forthcoming Books Rose Arny, 2002-02 *The German-American Encounter* Frank Trommler, Elliott Shore, 2001. While Germans the largest immigration group in the United States contributed to the shaping of American society and left their mark on many areas from religion and education to food, farming, political and intellectual life, Americans have been instrumental in shaping German democracy after World War II. Both sides can claim to be part of each other's history and yet the question arises whether this claim indicates more than a historical interlude in the forming of the Atlantic civilization. In this volume some of the leading historians, social scientists and literary scholars from both sides of the Atlantic have come together to investigate for the first time in a broad interdisciplinary collaboration the nexus of these interactions in view of current and future challenges to German-American relations. *GIs and Germans* Petra Goedde, Associate Professor of History, Petra Goedde, 2003-01-01. Goedde finds that as American soldiers fraternized with German civilians, particularly as they formed sexual relationships with women, they developed a feminized image of Germany that contrasted sharply with their wartime image of the aggressive Nazi storm trooper. A perception of German victimhood emerged that was fostered by the German population and adopted by Americans. *Traveling Between Worlds* Thomas Adam, Ruth V. Gross, 2006. In *Traveling between Worlds* six authors explore the connectedness between Germans and Americans in the nineteenth century and their mutual impact on transatlantic history. Despite the ocean between them, these two groups of people were linked not only by the emigration from one to the other but also by ongoing interactions, especially among their intellectuals. Christof Mauch's introduction examines the history of the German-American exchange and of cultural exchanges in general. Focusing on various aspects of the German-American relationship, Eberhard Bruning, John T. Walker, Thomas Adam, Gabriele Lingelbach, Andrew P. Yox and Christiane Harzig examine the cultural and communicative exchanges that occurred both between the two countries and within them. Topics such as travel, cultural interpretation, ideological and intellectual transfer, the immigrant experience and German-American poetry are all considered. *Traveling between Worlds* demonstrates that exchange was facilitated and maintained by ordinary individuals such as teachers and scholars, immigrants and natives and held implications that last to this day. **East-West Tensions...
