Gladio We Can Neither Confirm Nor Deny:

The Italian Far Right from 1945 to the Russia-Ukraine Conflict Nicola Guerra, 2023-12-19 The Italian Far Right from 1945 to the Russia Ukraine Conflict provides a comprehensive account of the postwar parliamentary and extra parliamentary far right in Italy This book explores the ideology movements and activism of the extreme right and neo fascists The recent victory in the Italian parliamentary elections of the post fascist party Fratelli d Italia and its leader Giorgia Meloni highlights the importance of such research The book examines why some of these movements participated with CIA backing in the Strategy of Tension in the years of the Cold War where terrorist actions aimed to keep Italy in NATO and prevent the Communist Party from coming to power while other extreme right groups vehemently opposed this and what they considered the dangerous Americanization of the country It debunks the myth that there was a unified postwar fascist movement in Italy but instead excavates the complex battles within the extreme right as well as with their opponents from the left and the authorities This study is necessary to clarify the history and ideological dynamics of a political area still too often shrouded in mystery and whose geopolitical role is still poorly understood and generally underestimated The analysis is contextualized in the present day by looking at the different perspectives of the Italian far right on the Russian invasion of Ukraine The book will be of interest to researchers of political history the Cold War and Italian history and politics **Resist** Julia Bell, Bidisha, SJ Bradley, Jude Brown, Lucy Caldwell, Steve Chambers, Martin Edwards, Uschi Gatward, Luan Goldie, Gaia Holmes, Nikita Lalwani, Zoe Lambert, Anna Lewis, Irfan Master, Donny O'Rourke, Kamila Shamsie, Karline Smith, Kim Squirrel, Lucas Stewart, Eley Williams, 2019-10-17 At a time that feels unprecedented in British politics with unlawful prorogations of parliament casual race baiting by senior politicians and a climate crisis that continues to be ignored it's easy to think these are uncharted waters for us as a democracy But Britain has seen political crises and far right extremism before just as it has witnessed regressive heavy handed governments Much worse has been done or allowed to be done in the name of the people and eventually those same people have called it out stood up resisted In this new collection of fictions and essays spanning two millennia of British protest authors historians and activists re imagine twenty acts of defiance campaigns to change unjust laws protests against unlawful acts uprisings successful and unsuccessful from Boudica to Blair Peach from the Battle of Cable Street to the tragedy of Grenfell Tower Britain might not be famous for its revolutionary spirit but its people know when to draw the line and say very clearly No pasar n This project has been supported by the Barry Amiel and Norman Melburn Trust and the Lipman Miliband Trust as well as Arts Council England Part of Comma's History into Fiction series *America's Plans for World Hegemony* Calistrat M. Atudorei, The book acidly tells us a story of the rise and decline of one of the greatest empires ever and surely the most prominent empire as the existing one in our life time The most prominent and as the statistical abstracts and documents of the US Congress reveal the most addicted of all empires to an old and continuous military interventionism in every corner of the world At the beginning of his book the author lists and

examines closely the new and century old principles and doctrines incorporated into American foreign policy as a combination between diplomacy and war and almost always the latter being the winner i e American exceptionalism Monroe Doctrine Teddy Roosevelt s Speak Soft and Carry a Big Stick diplomacy Show the Flag strategic idiom Gunboat Diplomacy Truman and Reagan doctrines the Domino Theory the neoconservative Project for a New American Century Bush Jr Doctrine of preventive wars etc Then quoting highly qualified American sources the author shocks the reader as he concludes that the US is no longer a truly democratic state but one led by oligarchy an Elite that no longer represent the will of the population He also emphasizes with logical arguments the existence of the US Military industrial complex the Deep State the Financial Cartel etc He unveils an America in the twilight zone of secretive planning and leadership strictly controlled global institutions wars and neocolonialism in the Middle East Latin America and East Europe and of 75 years of Soviet Union Russia incisive and limitless budgeted strategies of confrontation Basically in his book Mr Atudorei exposes a perpetual chain of historical misdeeds having America as its originator America addicted to militarism an American militarism addicted to aggression war and imperial supremacy 240 years long and continuous American wars addicted to millions of victims finally millions of victims forgotten by a political propaganda machine addicted to falsehood deception and lies and calling invasions coup d tats and aerial bombings as humanitarian interventions bringing peace freedom and democracy Radu Toma When referring to the world hegemony of the US the author points out that in fact the first victim of such a policy is the American people itself who became captive of more or less hidden centers of power called in various ways global oligarchy the military industrial complex the financial banking elite etc centers that usurped the real power in the state and transformed the democratic political system into a simulacrum for the use of masses subject to sophisticated social engineering Calistrat M Atudorei shows that the US as an empire with pretention of absolute global supremacy tends to impose its dominance both through non military wars cultural ideological media economic as well as through direct military invasions aiming to punish regimes and nations that do not want to be subjected to them Working with consistent arguments the author emphasizes that the plans of subjugation of the whole world are neither recent nor do they relate to the preferences of people who become US presidents On closer examination the so called hosts of the White House appear to us like ordinary puppets in the hands of forces behind the curtain See in this regard for example the current US President Donald Trump case who abandoned his electoral rhetoric being shaped by the Deep State on the line of serving the interests of this all powerful nebula to the detriment of the American people and peace in the world Iurie Ro ca *Baseless* Nicholson Baker, 2021-07-20 Staggeringly good Counterpunch A major new work a hybrid of history journalism and memoir about the modern Freedom of Information Act FOIA and the horrifying decades old government misdeeds that it is unable to demystify from one of America s most celebrated writers Eight years ago while investigating the possibility that the United States had used biological weapons in the Korean War Nicholson Baker requested a series of Air Force documents from the early 1950s under the provisions of the

Freedom of Information Act Years went by and he got no response Rather than wait forever Baker set out to keep a personal journal of what it feels like to try to write about major historical events in a world of pervasive redactions withheld records and glacially slow governmental responses The result is one of the most original and daring works of nonfiction in recent memory a singular and mesmerizing narrative that tunnels into the history of some of the darkest and most shameful plans and projects of the CIA the Air Force and the presidencies of Harry Truman and Dwight Eisenhower In his lucid and unassuming style Baker assembles what he learns piece by piece about Project Baseless a crash Pentagon program begun in the early fifties that aimed to achieve an Air Force wide combat capability in biological and chemical warfare at the earliest possible date Along the way he unearths stories of balloons carrying crop disease leaflet bombs filled with feathers suicidal scientists leaky centrifuges paranoid political warfare tacticians insane experiments on animals and humans weaponized ticks ferocious propaganda battles with China and cover and deception plans meant to trick the Kremlin into ramping up its germ warfare program At the same time Baker tells the stories of the heroic journalists and lawyers who have devoted their energies to wresting documentary evidence from government repositories and he shares anecdotes from his daily life in Maine feeding his dogs and watching the morning light gather on the horizon The result is an astonishing and utterly disarming story about waiting bureaucracy the horrors of war and above all the cruel secrets that the United States government seems determined to keep forever from its citizens
