The Role of Religion in Struggles for Global Justice Peter J. Smith, Katharina Glaab, Claudia Baumgart-Ochse, Elizabeth Smythe, 2019-10-23 Struggles for global justice are being fought by civil society groups across the globe addressing global inequalities challenging neoliberal market driven globalization and demanding to remedy its negative implications This book examines the roles religious communities and organizations in particular play in the struggles for global justice roles too often ignored by scholars of the Global Justice Movement GJM It has two central themes the role religion and religious actors play in global justice struggles and the idea that justice is a contested concept among both religious and secular actors which requires some sort of faith from its proponents These chapters transcend simplistic either or binaries highlighting the difficulties of clearly distinguishing between religious and secular progressive and conservative or rational and irrational motives and norms in struggles for justice Challenging the secularization paradigm that marginalizes the role religious actors play in public life these chapters show how these actors engage with a broad range of justice issues how deeply contested justice is and how its meaning may vary and change among religious actors as a result of the social or political context within which an injustice is encountered The chapters originally published as a special issue in Globalizations

The Social Media Wars Magdalena Karolak, 2014 This soon to be released monograph evaluates the role of the social media in strengthening and transforming religious identities in the aftermath of the Arab Spring Focusing specifically on Bahrain this study assesses how the sectarian interpretation of the protests exacerbated social divisions and reverberated around the Middle East intensifying sectarian loyalties The social media contribute to negotiation and reconstruction of the collective identities of the groups involved in the 2011 uprising which is visible through their online manifestations THE ARAB SPRING the recent uprisings in the Middle East have been commonly called a Facebook Revolution due to the role of social media in gathering supporters organizing the movement as well as coordinating widespread protests While new scholarship on the subject has been already emerging there is a shortage of studies on the post Arab Spring influence of the social media and their role in identity transformation The shortage of monographs dealing with the subject of Bahrain is especially acute This study goes a long way in remedying the dearth of scholarly material analyzing cause and effect and focuses on the enormous role of social media as well as concomitant countermeasures

Making Feminist Sense of the Global Justice Movement Catherine Eschle, Bice Maiguashca, 2010

In recent years the global justice movement has grabbed headlines and reshaped political imaginations worldwide. Surprisingly however feminism is largely absent from accounts of the movement despite the fact that feminists are extensively involved on the ground. Addressing this significant gap in the literature Eschle and Maiguashca shine a powerful light on what they term feminist antiglobalization activism. Drawing on their fieldwork at the World Social Forum and European Social Forum 2003-2005 they begin by outlining the vital role of feminist antiglobalization activism in Forum processes and events while also emphasizing its diversity. The authors then trace the origins of this activism, the critiques and aspirations of those involved, their political practices beyond the Forum and their efforts to forge a sense of solidarity among themselves and with others. Taking feminism seriously Eschle and Maiguashca conclude points us toward a richer and more theoretically nuanced understanding of the global justice movement and its struggle to create other possible worlds. Their book thus offers vital insights not only for feminists but also for all those interested in contemporary social movements and in global governance and resistance.

Empowering Women after the Arab Spring Marwa Shalaby, Valentine M. Moghadam, 2016-11-09 This book sheds light on some of the most critical issues impeding the advancement of women's rights post Arab Spring such as patriarchy, barriers to women's agency in the legal and socioeconomic realms, women's access to the decision making process, citizenship rights and the impact of conflict on women's status. It offers a distinct perspective that takes into account the diversity of the Arab world and presents a theoretical framework on the study of women's empowerment amid the transformations that have shaped the social and political fabrics of Arab societies. Empowering Women after the Arab Spring represents cutting edge research from a variety of academic disciplines: anthropology, political science and sociology and presents comparative analyses from places including the United Arab Emirates, Syria, Egypt and Tunisia. This volume offers one of the first systematic efforts to combine qualitative and quantitative research to draw a more accurate picture of the realities of Middle Eastern women.
