Why Vulnerability Still Matters Greg Bankoff, Dorothea Hilhorst, 2022-04-27 We think vulnerability still matters when considering how people are put at risk from hazards and this book shows why in a series of thematic chapters and case studies written by eminent disaster studies scholars that deal with

the politics of disaster risk creation precarity conflict and climate change The chapters highlight different aspects of vulnerability and disaster risk creation placing the stress rightly on what causes disasters and explaining the politics of how they are created through a combination of human interference with natural processes the social production of vulnerability and the neglect of response capacities Importantly too the book provides a platform for many of those most prominently involved in launching disaster studies as a social discipline to reflect on developments over the past 50 years and to comment on current trends The interdisciplinary and historical perspective that this book provides will appeal to scholars and practitioners at both the national and international level seeking to study develop and support effective social protection strategies to prevent or mitigate the effects of hazards on vulnerable populations It will also prove an invaluable reference work for students and all those interested in the future safety of the world we live in South Asia Migration Report 2020 S. Irudaya Rajan, 2020-06-02 South Asia Migration Report 2020 documents key themes of exploitation and entrepreneurship of migrants from the region This volume Includes dedicated fieldwork from India Pakistan Bangladesh and Nepal Analyses the impact of South Asia migrant established businesses Examines legal and legislative recourse against exploitation in destination countries Factors in how migration as a phenomenon negotiates with gender environment and even healthcare This book will be indispensable for scholars and researchers of economics development studies migration and diaspora studies gender studies labour studies and sociology It will also be useful to policymakers think tanks and government institutions working in the area **Globalization, Gender Politics, and the Media** Carolina Matos, 2016-11-16 From advertising to television and film feminist media scholars have examined the changing nature of media representations from the 1990 s onwards in comparison to the 1950s in the UK and the US Many debates focus on the current ambiguity surrounding media representations which are inserted within post feminist texts that tend to equate female empowerment with choice individualism and consumerism This has occurred in a context where there have been some achievements in gender equality worldwide with women occupying more spaces in the marketplace business and government In the last decades Latin America has been through many changes Inequality levels have been reduced and political trends have resulted in the election of female politicians throughout the continent corresponding with a revival of gender politics and feminist movements At the same time however countries like Brazil are still home to gender discrimination and inequality with high levels of domestic violence towards women low levels of political representation a culture of machismo and the enduring predominance of stereotypical gender representations in the media Globalization Gender Politics and the Media looks at the correlation between gender inequality in society with media representations situating the case of Brazil and Latin America within the global quest for gender justice It emphasizes the need to equate material and economic concerns with the examination of the reproduction of values and beliefs on gender through cultural and media outlets Questions that are asked include how can the media better contribute to assist in gender development and nation building How can online

platforms make a difference What can be done within the mainstream media to advance women s rights What is understood by the myth of the Brazilian woman and how does this connect to other notions of what the Third World woman is Using a triangulation methodology this book includes a small selection of interviews with experts from international organizations politicians in Brazil and bloggers as well as a sample of media analysis of ads commercials posters campaign material and feminist blogs to examine the challenges that gender equality faces in this country and the ways in which the media can make a difference
