Excerpt from *Genealogy of the First Seven Generations of the Bidwell Family in America* Many wonder why I should spend so much time and money upon a record of this kind and have thought I must be working to obtain some long forgotten property and a few have refused to send any information on this account as I could not convince them to the contrary I can only say that at first this work was taken up without any knowledge of its magnitude that it was done as a pastime during vacations from business and that I probably inherited a liking for work of this kind All are interested in preserving the history and records of their ancestors in knowing how they lived what their occupations were and other facts about them the eldest of each family delight in relating to children and grandchildren incidents that occurred to them their parents or grandparents and these incidents are carefully remembered for several generations but are at last forgotten About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works [Genealogy of the Seventh Generation of the Bidwell Family in America](#) Edwin M.
