Geloof Bij Kenterend Getij Peilingen Een Seculariserend Christendom:

Edward Schillebeeckx and Contemporary Theology Lieven Boeve, Frederiek Depoortere, Stephan van Erp, 2010-10-07
What are contemporary theology's challenges? What are its fruitful approaches? Who are its promising contributors? The contributions to this collection of essays try to find answers to these questions by making references to the Dutch Dominican scholar Edward Schillebeeckx using his theology as a starting point for an up to date investigation and discussion. The theological work of Edward Schillebeeckx marks the transition from a pre-modern to a modern approach to Christian faith, Church and theology. Already more than two generations of theologians have been trained in dialogue with his thought. Contemporary theology testifies often implicitly to the enduring relevance of many of Schillebeeckx's insights while in other instances it pushes his thinking to its limits in order to deal with the current challenges for faith and society.
