Geloven In Mensen Mensen Geloven:

Cultuur & Lichaam Paul Voestermans, Theo Verheggen, 2007-05-21 I was deeply impressed by this book It is a fresh and original analysis of cultural psychology there is nothing like this on the market the argument is so clear and the material so well constructed that one can't help but argue with the authors at the same time as one is urging them on In one fell swoop they take on the trend to evolutionary psychology the worst of social psychology integrate little known facts with the better known make a plea for the centrality of the body and a practice orientation to psychology explain religious tolerance and intolerance add aging to the mix and come out with a coherent picture of the relation between culture and psychology Brilliant really Professor Henderikus Stam University of Calgary The book is in one word a gem Compared to the many books in the cultural studies field this book reaches far deeper and higher Tom ter Bogt professor Music and Youth Culture Utrecht University The book is written in a lively stimulating provocative style It draws on a wide variety of disciplines apart from psychology sociology anthropology history religious studies philosophy etc as indeed any good book about culture should Indeed this multidisciplinary perspective is perhaps the book's main strength David Ingleby Professor of Intercultural Psychology Utrecht University This book presents both an innovative theoretical account of the persistence of behavioural patterns and an intriguing and detailed analysis of five central areas of cultural problem solving Both theory and empirical analysis are coherent and consistent and complicated issues usually are clarified by many well chosen examples that can easily be related to current cultural themes and debates Moreover the book is written in a fluent style Ruud Abma Professor of Social Science Utrecht University

Geloven maakt gelukkig Johan Graafland, 2025-06-12 Geloof is het nieuwe geluk verrassende inzichten uit geluksonderzoek en theologie In Nederland bestaat het beeld dat gelovigen een saai en ingeperkt leven leiden gevangen in verouderde regels en gemis aan levensgenot Hoogleraar economie Johan Graafland prikt deze mythe door met recent onderzoek met geluksgegevens In dit boek onderzoekt hij hoe waarom en wanneer geloof en geluk samengaan in de hele wereld en in Nederland en bespreekt hij de bevindingen in het licht van de internationale literatuur Daaruit blijkt dat gelovigen vaak gelukkiger zijn dan niet gelovigen Vervolgens ontwikkelt hij een kleine theologie van het geluk die de betekenis van het onderzoek met geluksgegevens duidt vanuit een theologisch perspectief Zo blijkt dat geloof meer is dan een spirituele zoektocht het is een sleutel naar welzijn
