Gem And Stone Gem And Stone

Edwin William Streeter

Gem And Stone Gem And Stone:

A Book of Precious Stones Julius Wodiska,1918 Precious Stones and Gems Edwin William Streeter,1892

Gemstones and their distinctive Characters Frederik Herbert Smith,2020-03-06 Excerpt It has been my endeavour to provide in this book a concise yet sufficiently complete account of the physical characters of the mineral species which find service in jewellery and of the methods available for determining their principal physical constants to enable a reader even if previously unacquainted with the subject to have at hand all the information requisite for the sure identification of any cut stone which may be met with For several reasons I have dealt somewhat more fully with the branches of science closely connected with the properties of crystallised matter than has been customary hitherto in even the most comprehensive books on precious stones Recent years have witnessed many changes in the jewellery world Gem stones are no longer entirely drawn from a few well marked mineral species which are on the whole easily distinguishable from one another and it becomes increasingly difficult for even the most experienced eye to recognise a cut stone with unerring certainty So long as the only confusion lay between precious stones and paste imitations an ordinary file was the solitary piece of apparatus required by the jeweller but now recourse must be had to more discriminative tests such as the refractive index or the specific gravity the determination of which calls for a little knowledge and skill Concurrently a keener interest is being taken in the scientific aspect of gem stones by the public at large who are attracted to them mainly by aesthetic considerations

Simon and Schuster's Guide to Gems and Precious Stones Curzio Cipriani,Alessandro Borelli,1986 Simon Schuster s Guide to Gems and Precious Stones provides both the connoisseur and the casual collector with a compact easy to use volume describing more than 100 rare varieties of minerals whose beauty and mystery have possessed our imaginations from time immemorial More than 450 brilliant photographs accompany profiles of each gem covering such aspects as appearance physical properties density hardness refraction occurrence and how to judge quality and value Additional sections describe the process of cutting gemstones and the techniques professional gemologists use to evaluate a stone s weight and optical properties Detailed and comprehensive this book is essential for anyone interested in the study of gems and precious stones

Gemstones Karen Hurrell,Mary L. Johnson,2016-12-15 This fascinating work provides a truly stunning visual guide to the beautiful world of gemstones It brings together a wealth of information in clearly worded text accompanied by a dazzling collection of color photographs showing gems in their natural and cut states From subjects as diverse as identifying and collecting minerals and advanced testing to ethical sourcing of gems every aspect of gemstones is covered and is presented with a wealth of research in easy to understand sections making it a must have reference work for anyone who wants to delve into the exciting world of gems Healing Power of Gems Dr.Gopal Sharma & Pr. Sewaram Jaipuria,2006 *Gem Stones of the Seven Rays* C. Nelson Stewart,1996-09 1939 the first ray is distinguished by the will the second by love the third is creative activity the fourth is a seeker of harmony the fifth is stability the sixth ray is devotion and the seventh ray is beauty

Semiprecious stones continued Chrysoberyl and opal The quartz gems The quartz gems continued The opaque gems and
ornamental stones Unusual gem stones Organic products used as gems **Gem-Stones and Their Distinctive Characters**
(Classic Reprint) George Frederick Herbert Smith,2017-11-21 Excerpt from Gem Stones and Their Distinctive Characters
Eauty durability and rarity such are the three cardinal Virtues of a perfect gem stone Stones lacking any Of them cannot
aspire to a high place in the ranks Of precious stones although it does not necessarily follow that they are of no use for
ornamental purposes The case of pearl which though not properly included among gem stones being directly produced by
living agency yet holds an honoured place in jewellery constitutes to some extent an exception since its incontestable beauty
atones for its comparative want Of durability About the Publisher Forgotten Books publishes hundreds of thousands of rare
and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work
Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst
repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing
page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections
that remain are intentionally left to preserve the state of such historical works Little Gems Gemstone Record Book Boodle
Boodle Books,2020-07-19 When we first get started with the healing power of crystals the names of gems and precious stones
and their unique healing properties is tricky to remember With so many beautiful gemstones that attract us our collection
can grow quickly and it s sometimes hard to keep track of and identify what we have We love the light shimmering through

the stone the feel of its weight in the palm of our hand and the soft vibration of its energy as we sit quietly and breathe holding it close to our heart A few weeks or months later however the names of precious stones may have slipped our mind or we may have forgotten which energy chakras we d originally intended this crystal for Now with this beautiful paperback journal you can record the unique traits of your precious stones and refer back to it whenever you need to It s an ideal crystals for beginners companion for the crystal and gemstone enthusiast Features include Size 6 x 9 120 pages Lightweight and portable carry it in your bag or tuck it on the shelf next to your collection Each gemstone has its own double page spread to record name color description and special characteristics healing properties and any specific personal uses as well as other comments for care and maintenance There s also space to draw a sketch or insert a photograph of each gemstone Record up to 60 gemstones in this journal Once it s full purchase another and keep collecting and recording Whether you collect astrology stones crystals for the chakras of the body or have a crystal skull collection there is space in this gemstone record book to note all the important details to help you identify each of your precious and semi precious stones If it s worth collecting it s worth recording Get your Little Gems gemstone record book today and enjoy building and learning more about your collection
