PHONICS SURVEY

CORE Phonics Survey adapted to align with SD36 Phonics Scope & Sequence

CORE[®]

Commitment to Reading Excellence in Education

WHAT?

This phonics survey assesses the phonics and phonics-related skills that have a high rate of application in beginning reading. The survey presents a number of lists of letters and words for the student to identify and decode. Pseudowords, or made-up words, are included since the student must use decoding skills to correctly pronounce these words and cannot have memorized them.

This survey can be used as a screening measure, and also as an outcome measure, providing data about growth and mastery at the end of an instructional period. As a diagnostic, it can indicate whether or not a student needs instruction in selected phonics concepts, or if further assessment is needed. It may also be used to track progress from earlier skills to grade level mastery.

WHY?

A student's ability to use knowledge of sound/letter correspondences (phonics) to decode words determines, in large measure, his or her ability to read individual words. A detailed assessment of a student's phonics skills points to areas in which the student is likely to benefit most from systematic, explicit phonics instruction. Also, knowing the skills that the student does possess will help in selecting reading tasks that offer the most effective reinforcement of those skills.

HOW?

Instructions for administering each part of the survey are included on the Teacher Record Form. Students read from the Student Pages. When using this survey as a specific skills test or screening measure, do not discontinue testing if a student does not do well on one of the sections. Instead, move to the next section and continue testing. If the student was able to read most of the single syllable real and pseudowords, also administer the multisyllabic section.

To focus the student's attention on the part of the survey being given, cover the other parts of the page with a piece(s) of blank paper. The Teacher Record Form shows the same material that appears on the Student Pages, in a reduced size, so that you may easily record the student's responses. Be aware of the student's behaviour during the survey. If a student is tiring or making many consecutive errors, discontinue testing at that time.

Following administration, score each part of the survey, and transfer the results to the first page on the Teacher Record Form under Skills Summary.

El Paso Phonics Survey Examples:

Reading Assessment and Instruction for All Learners Jeanne Shay Schumm, 2017-02-13 Weaving together the latest knowledge and best practices for teaching children to read this indispensable text and professional resource provides a complete guide to differentiated instruction for diverse learners. Uniquely integrative, the book places the needs of English language learners and students with disabilities front and center instead of treating them as special topics. Accessible chapters on each of the core components of literacy clearly demonstrate how to link formal and informal assessment to evidence-based instruction. Special features include Research Briefs, Tech Tips, Internet Resources, Reflection and Action Questions, and dozens of reproducible student activities and assessment tools.

Alternative Assessment Techniques for Reading & Writing Wilma H. Miller, 1995-05-22 This practical resource helps elementary classroom remedial reading and LD teachers make the best possible informal assessment of a child's specific reading, writing, and spelling strengths and weaknesses and attitudes toward reading. Written in easy-to-follow, nontechnical language, it provides a multitude of tested informal assessment strategies and devices such as kid watching, retellings, journals, IRIs, writing surveys, portfolios, think alouds, and more, including more than 200 reproducible assessment devices ready for immediate use. You'll find a detailed description of each informal assessment technique along with step-by-step procedures for its use, and wherever possible, one or more reproducible sample devices. Complete answer keys for each device are included with the directions. Among the unique topics covered are the innovative Individual Reading Inventory, San Diego Quick Assessment List, El Paso Phonics Survey, QAD Chart, Holistic scoring of writing, and Reproducible devices for portfolio assessment. In short, *Alternative Assessment Techniques for Reading and Writing* offers a wealth of tested, ready-to-use informal assessment information and devices that should save the teacher a great deal of time and energy in making a useful assessment of any student's literacy ability.
