suitable topic for doctoral study are generally ignored. The lack of training in reference skills and the absence of reference sources results in piles of theses on the same or similar topics. Hence this book, which also includes a separate bibliography of PhD theses, aims to help the aspirant researchers to find out a proper topic for their research degrees and review the related literature. It will guide them to refer to the theses either available on Shodhganga, a reservoir of Indian theses, or in the academic libraries in Higher Education Institutions. The book is also recommended for PhD coursework in Indian universities.
