How do I imagine my life after reaching my goals? When one uses empathy in real life to understand why a person is angry or a child is throwing a tantrum, he/she might learn about things in their lives that trigger the behavior. For example, one might find that something happened at home, thus pushing the angry person to act out, or that the child did not have a meal in the morning, thus they are not okay. Empathy enables one to ask questions about the situation or behavior of another person before taking a defensive stance or reacting to some emotions. There may still be the need for disciplinary action, but one should use empathy first. Empathy makes a person feel valued and understood, even if they are punished for the wrong deeds, and as such, they will accept responsibility for their action. Empathy is currently the missing link in schools, families, workplaces, and the world at large. Empaths aren't made
