Drawing on some twenty-five years of clinical experience, Dr. Dodman offers what he calls continuing education for dogs and their owners. You will discover how much exercise your dog really needs and why, how diet can affect behavior, how to communicate clearly with your dog and understand dog body language, how to lead your dog, not dominate him, how to optimize your dog's environment, how to address medical problems that might underlie unwanted behavior. Dr. Dodman's comprehensive seven-step approach takes on the whole dog, his health, behavior and environment and lays the groundwork for the proper care and training of your best friend for life.
