Bandes, Jody L. Madeira, Kathryn D. Temple, Emily Kidd White, 2021-04-30 This illuminating Research Handbook analyses the role that emotions play and ought to play in legal reasoning and practice rejecting the simplistic distinction between reason and emotion **Boys and Men in African American Families** Linda M. Burton, Dorian Burton, Susan M. McHale, Valarie

King, Jennifer Van Hook, 2016-12-09 This important volume takes a life course approach in sharing empirical insights on the family experiences of African American males in socioeconomic and political contexts Representing fields ranging from developmental psychology to public health and sociology to education chapters identify challenges facing black men and boys in the U S as well as family and community sources of support and resilience Survey findings and exemplar case studies illustrate stressors and risk factors uniquely affecting African American communities and tailored prevention and intervention strategies are described at the personal family and societal levels These interdisciplinary perspectives not only encourage additional research but inspire the continued development of appropriate interventions relevant practice and equitable policy Included in the coverage The adjustment and development of African American males Conceptual frameworks and emerging research opportunities A trauma informed approach to affirming the humanity of African American boys and supporting healthy transitions to manhood Humanizing developmental science to promote positive development of young men of color Families prisoner reentry and reintegration Safe spaces for vulnerability New perspectives on African Americans who struggle to be good fathers They can't breathe Why neighborhoods matter for the health of African American men and boys Promoting diversity in the research agenda to reflect a diverse population Boys and Men in African American Families is an invaluable reference for research professionals particularly interested in sociology public policy anthropology urban and rural studies and African American studies Survey and ethnographic studies of poverty inequality family processes and child adolescent and adult health and development are featured **Man Out** Andrew L. Yarrow, 2018-09-11 The story of

men who are hurting and hurting America by their absence Man Out describes the millions of men on the sidelines of life in the United States Many of them have been pushed out of the mainstream because of an economy and society where the odds are stacked against them others have chosen to be on the outskirts of twenty first century America These men are disconnected from work personal relationships family and children and civic and community life They may be angry at government employers women and the system in general and millions of them have done time in prison and have cast aside many social norms Sadly too many of these men are unsure what it means to be a man in contemporary society Wives or partners reject them children are estranged from them and family friends and neighbors are embarrassed by them Many

have disappeared into a netherworld of drugs alcohol poor health loneliness misogyny economic insecurity online gaming pornography other off the grid corners of the internet and a fantasy world of starting their own business or even writing the Great American novel Most of the men described in this book are poorly educated with low incomes and often with very few prospects for rewarding employment They are also disproportionately found among millennials those over 50 and African American men Increasingly however these lost men are discovered even in tony suburbs and throughout the nation It is a myth that men on the outer corners of society are only lower middle class white men dislocated by technology and globalization Unlike those who primarily blame an unjust economy government policies or a culture sanctioning laziness Man Out explores the complex interplay between economics and culture It rejects the politically charged dichotomy of seeing such men as either victims or culprits These men are hurting and in turn they are hurting families and hurting America It is essential to address their problems Man Out draws on a wide range of data and existing research as well as interviews with several hundred men women and a wide variety of economists and other social scientists social service providers and physicians and with employers through a national online survey and in depth fieldwork in several communities

**The Shriver Report** Maria Shriver, Center for American Progress, 2014-03-11 Presents an in depth look at American women and families around transformational moments in history with new data and commentary on the current status of women in America

**Ensuring Inequality** Donna L. Franklin, 2015-09-17 There is a crisis today in the American family and this crisis has been particularly severe in the African American community Black women are more likely than ever to bear children as teenagers to remain single and to raise their children in poverty As a result a staggering number of African American children are growing up without fathers and living in destitution In this insightful new book Donna L Franklin offers an in depth account of the history and development of the African American family revealing why the marriage and family experiences of African Americans differs from those of white America and highlighting the cultural and governmental forces that have combined to create this divide and to push the black family to the edge of catastrophe In Ensuring Inequality Franklin traces the evolution of the black family from slavery to the present showing the cumulative effects of centuries of historical change She begins with a richly researched account of the impact of slavery on the black family finding that slavery not only caused extreme instability and suffering for families but established a lasting pattern of poverty which made the economic advantages of marriage unattainable She provides a sharp critique of the policies of the Freedmen s Bureau during Reconstruction and demonstrates the mixed impact of the new pattern of sharecropping On one hand tenant farming allowed greater autonomy than the older gang labor system and tended to consolidate two parent families on the other hand it reinforced male authority and bound African Americans in debt peonage The twentieth century brought a host of changes for black families and Franklin incisively examines their effects First black women began to move to cities in search of jobs as domestic servants while men stayed behind to work the fields dividing the families Then two world wars sparked the great

migration north as African Americans pursued employment in booming factories. When the white soldiers returned home, however, many blacks found themselves out of work, shunted to the least desirable, lowest paying jobs. Roosevelt's New Deal offered limited help in the North; it tolerated the red lining of urban neighborhoods, making it difficult for blacks to obtain home mortgages. In the South, blacks found that as agricultural laborers they were exempted from most labor laws, while agricultural subsidies were administered in favor of white farmers. And the distinction made between programs paid for by beneficiaries such as social security and those based on need such as Aid to Families with Dependent Children stigmatized the poor. Most blacks found themselves living an ever more tenuous, socially isolated existence.

Franklin brings her comprehensive, nuanced study right up to the present, showing the impact on the urban poor of changes in the economy and society, from the dramatically shrinking pool of good jobs to the rise of the new right. The increasing reliance on welfare by young black mothers, she writes, corresponded to the erosion of opportunities for young black males. More important, she offers new approaches to solving the crisis. Not only does she recommend federal intervention to create new economic opportunity in urban ghettos, but she also stresses the importance of black self help and proposes a plan of action. In addition, she outlines social interventions that can stabilize and strengthen poor mother-only families living in ghetto neighborhoods.

Exhaustively researched and insightfully written, *Ensuring Inequality* makes an important contribution to the central debate in American politics today.

*Falling Back* Jamie J. Fader, 2013-04-15 Jamie J. Fader documents the transition to adulthood for a particularly vulnerable population: young inner-city men of color who have by the age of eighteen already been imprisoned. How, she asks, do such precariously situated youth become adult men? What are the sources of change in their lives? *Falling Back* is based on over three years of ethnographic research with black and Latino males on the cusp of adulthood and incarcerated at a rural reform school designed to address criminal thinking errors among juvenile drug offenders. Fader observed these young men as they transitioned back to their urban Philadelphia neighborhoods, resuming their daily lives and struggling to adopt adult masculine roles. This in-depth ethnographic approach allowed her to portray the complexities of human decision making as these men strove to fall back or avoid reoffending and become productive adults. Her work makes a unique contribution to sociological understandings of the transitions to adulthood, urban social inequality, prisoner reentry, and desistance from offending.

**Understanding Poverty** Elizabeth Seale, 2023-08-15 People in poverty suffer daily under misconceptions about economic hardship and its causes. Providing the most comprehensive consideration to date of poverty in the United States, Elizabeth Seale tackles how we think about issues of culture, behavior, and poverty, cutting straight to the heart of debates about social class. The book addresses tough questions, including how being poor affects individual behavior and how we can make sense of that in a larger social and political context. The central premise is that to understand the behavior and lives of people in poverty, one must consider their relational context, especially relations of vulnerability and the human need for dignity. Poverty is a social problem we should address as a society by changing social

relations that as a matter of course cause unnecessary and immense suffering To do so we must directly confront our lack of regard for people in poverty by recognizing that they are in fact worthy of an effort to induce major social change This critical introduction to poverty will be an important read for undergraduate students and above in sociology wanting to learn more about the growing social problems of poverty inequality and stratification *Of Boys and Men* Richard V.
