Doing Business 2010 Reforming Through Difficult Times:

Doing Business 2010 World Bank,2009-09-11 The seventh in a series of annual reports investigating the regulations that enhance business activity and those that constrain it Doing Business presents quantitative indicators on business regulations and the protection of property rights that can be compared across 183 economies from Afghanistan to Zimbabwe and over time Regulations affecting 10 stages of a business s life are measured starting a business dealing with construction permits employing workers registering property getting credit protecting investors paying taxes trading across borders enforcing contracts and closing a business Data in Doing Business 2010 are current as of June 1 2009 The indicators are used to analyze economic outcomes and identify what reforms have worked where and why **Doing Business 2011** World

Bank,2010-11-03 Eighth in a series of annual reports comparing business regulations in 183 economies Doing Business 2011 measures regulations affecting 10 areas of everyday business activity starting a business dealing with construction permits employing workers registering property getting credit protecting investors paying taxes trading across borders enforcing contracts and closing a business The report updates all 10 sets of indicators ranks countries on their overall ease of doing business and analyzes reforms to business regulation identifying which countries are improving strengthening their business environment the most and which ones slipped Doing Business 2011 includes results on the ongoing research in the area of getting electricity and illustrates how reforms in business regulations can translate into better outcomes for domestic entrepreneurs and the wider economy It also focuses on how women in particular are affected by complex business regulations Doing Business 2010 World Bank,2009-09-11 The seventh in a series of annual reports investigating the

regulations that enhance business activity and those that constrain it Doing Business presents quantitative indicators on business regulations and the protection of property rights that can be compared across 183 economies from Afghanistan to Zimbabwe and over time Regulations affecting 10 stages of a business s life are measured starting a business dealing with construction permits employing workers registering property getting credit protecting investors paying taxes trading across borders enforcing contracts and closing a business Data in Doing Business 2010 are current as of June 1 2009 The indicators are used to analyze economic outcomes and identify what reforms have worked where and why *Doing Business 2012*

World Bank,2011-10-18 Ninth in a series of annual reports comparing business regulations in 183 economies Doing Business 2012 measures regulations affecting 11 areas of everyday business activity starting a business dealing with construction permits employing workers registering property getting credit protecting investors paying taxes trading across borders enforcing contracts closing a business getting electricity The report updates all indicators as of June 1 2011 ranks countries on their overall ease of doing business and analyzes reforms to business regulation identifying which countries are strengthening their business environment the most Doing Business 2012 includes a new set of indicators on the time steps and cost for a private business to get an electricity connection The data on connection services can inform utilities regulators

and governments seeking to strengthen the performance of the electricity sector Drawing on a now longer time series this year's report introduces a measure to illustrate how the regulatory environment for business has changed in each economy since Doing Business 2006 was published in 2005 A new distance to frontier measure complements the aggregate ranking on the ease of doing business which benchmarks each economy's current performance on the indicators against that of all other economies in the sample for a given year A fundamental premise of Doing Business is that economic activity requires good rules that are transparent and accessible to all Such regulations should be efficient striking a balance between safeguarding some important aspects of the business environment and avoiding distortions that impose unreasonable costs on businesses Where business regulation is burdensome and competition limited success depends more on whom you know than on what you can do But where regulations are relatively easy to comply with and accessible to all who need to use them anyone with talent and a good idea should be able to start and grow a business in the formal sector The Doing Business report which was started in 2003 has become one of the key ways in which the bank and other observers gauge business climate within developing countries The Financial Times Doing Business started as a way to encourage countries to reduce obstacles to entrepreneurship Developing countries compete to land a spot on the top 10 list of most improving countries because it is seen as a way to get attention and investment The Wall Street Journal Doing Business has succeeded in putting the issue of business red tape on the international political agenda The Economist [The Law of Interactions Between International Organizations](#) Henner Gött, 2021-02-02 The book analyses how international law addresses interactions between international organizations In labour governance these interactions are ubiquitous They offer each organization an opportunity to promote its model of labour governance yet simultaneously expose it to adverse influence from others The book captures this ambivalence and examines the capacity of international law to mitigate it Based on detailed case studies of mutual influence between the International Labour Organization the World Bank and the Council of Europe the book offers an in depth analysis of the pertinent law and its key challenges both at institutional and inter organizational level The author envisions a law of inter organizational interactions as a normative framework structuring interactions and enhancing the effectiveness and legitimacy of multi institutional governance [OECD Reviews of Regulatory Reform Regulatory Policy in Lithuania Focusing on the Delivery Side](#) OECD, 2015-07-29 This review takes stock of the development and implementation of regulatory reform in Lithuania at a critical juncture for Lithuania Confronted with the challenge of supporting growth and competitiveness Lithuania has embarked upon an ambitious reform programme that addresses not only the [OECD Reviews of Regulatory Reform Regulatory Policy in Chile Government Capacity to Ensure High-Quality Regulation](#) OECD, 2016-04-25 Chile enjoys a very sound macroeconomic framework and economic resilience partly due to a prudent regulatory and supervisory framework for its financial system Nevertheless Chile lacks a comprehensive regulatory reform programme This report examines how Chile can ensure high quality regulation *The Quiet Power of Indicators* Sally Engle

Merry, Kevin E. Davis, Benedict Kingsbury, 2015-05-19 Using a power knowledge framework this volume critically investigates how major global indicators of legal governance are produced disseminated and used and to what effect Original case studies include Freedom House's Freedom in the World indicator the Global Reporting Initiative's structure for measuring and reporting on corporate social responsibility the World Justice Project's measurement of the rule of law the World Bank's Doing Business index the World Bank supported Worldwide Governance Indicators the World Bank's Country Performance Institutional Assessment CPIA and the Transparency International Corruption Perceptions index Also examined is the use of performance indicators by the European Union for accession countries and by the US Millennium Challenge Corporation in allocating US aid funds

Economic Growth in the European Union Christos Nikas, 2020-08-29 This book studies the economic recovery of individual European Union member states more than ten years after the beginning of the global economic crisis In light of austerity policies and conservative government investments in many EU countries it explores how higher growth rates can be achieved by stimulating firms and economic sectors with a high accelerator potential The contributing authors analyze the effects of EU policies on small and medium sized enterprises SMEs while also studying EU policies with the potential to foster investments and economic growth Furthermore the book assesses the EU policy on foreign direct investment FDI in the member states in comparison with similar policies in Russia and the US The authors demonstrate that FDI besides providing financial resources can facilitate modernization especially in the high technology sectors Finally the book provides a sector analysis and policy recommendations on tourism and immigration as well as economic protectionism since tourism has proved to be the most dynamic sector especially in the European South while immigration is one of the most serious issues the EU is currently facing This book will appeal to scholars in economics and related fields as well as decision makers and professionals at governmental institutions looking for policy measures and tools to stimulate economic growth

Development Effectiveness Review 2009 Asian Development Bank, 2010 **APEC Economic Policy Report**, 2012 Poverty and Human Development Report, 2011, 2012 **Investment Policy Review** United Nations Conference on Trade and Development, 2012 The Investment Policy Reviews IPRs of UNCTAD help countries improve their investment policies and familiarise Governments and the international private sector with an individual country's investment environment The IPR of the former Yugoslav Republic of Macedonia initiated at the request of the Macedonian Government analyses FDI trends and their impact on the host economy provides a detailed evaluation of the legal and regulatory framework for investment including concrete recommendations to improve it and presents an overall strategy to attract investment that feeds into a government programme for stimulating investment covering the period 2011 to 2014 The report stresses that during the past decade the Government has undertaken ambitious reforms to modernise the country complete the process of transformation into a market economy and improve the living conditions of the population However FDI inflows though increasing have so far been low compared to other South East European countries Among the factors

holding back investment the most important are outstanding issues in the business and investment environment including in areas such as access to land and construction permits as well as employment of foreigners or implementation of existing legislation and lack of coordination in policy making and execution and the ensuing proliferation of insufficiently related and consistent development strategies competitiveness plans industrial policies and investment strategies To meet the Government's double goals of increasing FDI inflows and deepening the benefits derived from them an overall strategy building on five main pillars is suggested in the IPR namely a achieving global excellence in the investment framework b creating synergies between FDI and industrial policy c strengthening policy making in the area of investment and competitiveness d rationalizing the investment promotion effort and e ensuring effective policy implementation *Working Conditions Laws Report 2010* Carola Nolte, 2010 Demonstrates that in most countries minimum standards for working conditions have been defined in law **OECD Economic Surveys: Slovak Republic 2010** OECD, 2010-12-07 OECD's periodic survey of the economy of the Slovak Republic This edition includes chapters covering emerging from the crisis public sector efficiency and greener growth *Minerals and Africa's Development* United Nations.
