

Learning Progressions and the Hess Cognitive Rigor Matrix

The DOK Matrix aligns specific tasks from the learning progressions developmental learning sequence to specific cognitive levels or DOKs.

- Based in research describing how understanding typically develops for most students over time.
- Organized around the big ideas of the discipline (goal: develop mental schemas; ability to transfer learning).
- Suggest an intentional mapping (not linear, iterative) as to how to teach and build upon earlier concepts to get to deeper understanding
- Guide assessment that allows for interpretations of Novice- Expert performance based on where students are along a hypothesized learning continuum.
