and reliable indicators despite the challenges of measuring corridor performance in the CAREC context. The extensive depth of data collected and the richness of information that CPMM has been providing since 2009 supports detailed policy analysis and formulation. Trade facilitation indicators have been developed to inform CAREC's Development Effectiveness Review. These indicators provide a basis of comparison or benchmarking of one location, border crossing point or corridor segment against another in terms of i) the efficiency of border management agency policies and procedures in regulating trade; ii) infrastructure quality; and in due course iii) the quality and performance of trade logistics service providers. The four indicators include the standard measures of time and cost as the main components. Selected corridor performance data are then analyzed to identify the physical and non-physical barriers to trade and transit traffic encountered at specific locations, helping to pinpoint the causes of excessive delays and costs. With this study, ADB underscores the value of CPMM for CAREC countries and for countries participating in other subregional programs as they craft policies and consider investments to facilitate trade.

*The Neighbours of the European Union's Neighbours* Sieglinde Gstöhl, Erwan Lannon, 2016-02-24. Should the European Neighbourhood Policy stop at the borders of the European Union's immediate neighbouring countries? This book is the first full-length study of the neighbours of the EU's neighbours, a concept originally introduced by the European Commission with reference to Saharan Africa, the Middle East and Central Asia. These regions in the EU's broader neighbourhood are often perceived as an arc of crisis from which manifold challenges emanate for Europe. This timely book takes stock of the state of the EU's cooperation with the neighbours of its neighbours and explores how the concept might help promote security, stability and prosperity beyond the countries which are formally part of the European Neighbourhood Policy. How can the EU create bridges between these regions? What instruments does the EU have at its disposal and how can it link them in order to respond to the challenges and overcome the current fragmentation? One of the conclusions is the suggestion to consider a pragmatic EU Strategy for the Neighbours of its Neighbours which addresses the needs of the broader EU neighbourhood in

a more systematic and consistent manner and helps transform in the long run the arc of crisis into another ring of friends
