Canton, 2007-02-03 This book propounds an all hazards multidisciplinary approach to emergency management It discusses the emergency manager's role details how to establish an effective integrated program and explores the components including assessing risk developing strategies planning concepts planning techniques and methods coordinating response and managing crisis Complete with case studies this is an excellent reference for professionals involved with emergency preparedness and response

[Essentials in Emergency Management](#) Brian Gallant, 2008 Written for both paid and volunteer emergency managers Essentials in Emergency Management examines why preparing a basic emergency plan or all hazards plan for a city town or state improves a community's ability to respond more quickly and effectively in an emergency situation than any attempt to prepare dozens of hazard specific plans Outlining the various roles and responsibilities that emergency managers have in today's world author Brian Gallant covers many of the issues these managers encounter and provides recommendations and general guidance they can incorporate into any emergency response plan Readers will learn about the organizational impact

and actions needed to counter such natural hazards as floods wildfires and weather disasters and such technological hazards as structural fires hazardous materials releases water supply contamination and acts of terrorism

Essentials in Emergency Management examines the Incident Command System ICS the new presidential directive dealing with the National Incident Management Systems NIMS and the new emergency management concept called the all hazards approach the idea that a community's emergency plan follows the same philosophies and actions no matter what the emergency situation used by most communities the states and the federal government This new handbook also discusses how to manage volunteers and deal with pets in disaster situations and looks at what the rest of the world is doing with respect to emergency management The appendices include helpful reference materials checklists and forms

Bridging the Gap Melinda Moore, 2010 U S policymakers have stepped up systematic disaster preparedness efforts sharply since the terrorist attacks of September 11 2001 including the creation of the U S Department of Homeland Security and a plethora of federal initiatives Against a backdrop of natural disasters that occur each year in the United States and heightened concern about pandemic influenza there is an emerging national consensus that the best path is an all hazards approach to disaster preparedness planning and that effective local planning is critical Military installations and their civilian counterparts local government and local health care providers especially the U S Department of Veterans Affairs can strengthen local level disaster preparedness planning This is an interim report for the first phase of a larger study aiming to develop a planning support tool for local military and civilian planners It describes current policies and programs especially those with nationwide application for domestic emergency preparedness risk analysis and capabilities based planning It also describes results from interviews with local military and civilian planners at five selected sites to help understand how local preparedness planning currently operates and identify the needs of local planners Collectively these form the basis for a proposed tool for which the framework is described in this report The next phase of the study will include development and field testing of a proof of concept prototype of the tool
