Developing Early Comprehension Skills Through Picture Book Talk Donna Thomson, 2023-12-13 *Developing Early Comprehension Skills Through Picture Book Talk* demonstrates how strategic picture reading and playful sensory learning can develop young children's explicit and implicit comprehension skills regardless of their decoding ability. Offering an inclusive teaching and assessment approach that aligns with the Early Years Foundation Stage (EYFS) framework and supports the early adopter school initiative, it will help readers to guide children's use of picture reading for meaning strategies in preparation for more complex comprehension instruction in Year 1. The book also contains useful resources such as colour picture booklets and downloadable family workshop sessions to help guide parents in more effective picture book talk at home. It offers corresponding steps for planning teaching and assessing children's picture book talk, multisensory learning, self-questioning skills, and early reading for meaning. The methods and activities within this book specifically help to develop vocabulary, setting vocabulary, character vocabulary, general vocabulary, communication and language skills, critical thinking and inference skills, metacognition, personal learning awareness, self-confidence, and self-regulation skills. Providing examples of practice, photocopiable resources, and step-by-step guidance for teaching key comprehension strategies and early self-regulation skills, this book is essential reading for all those who work with young children and wish to encourage a love of reading.

Chapters on specific literacy processes integrate foundational knowledge, assessments, and strategies for students who need support in literacy, including English language learners. Presented are dozens of authentic assessments along with differentiation ideas. In a large size format for easy photocopying, the book features more than 70 reproducible assessment forms and resources. Purchasers get access to a webpage where they can download and print the reproducible materials.

(Re)imagining Translanguaging Pedagogies through Teacher-Researcher Collaboration Leah Shepard-Carey, Zhongfeng Tian, 2023-06-08 This book presents one possible pathway towards the advancement of translanguaging pedagogies, teacher-researcher partnerships. Although the existing literature alludes to the value of such partnerships, there is a lack of research that explicitly describes the complex processes of designing and implementing translanguaging pedagogies in primary and secondary school settings (K-12) across various international contexts. Through an expanded focus on teacher-researcher collaboration and the negotiation process, the book unpacks the opportunities and challenges of engaging in contextualized translanguaging designs with reference to broader ideological discourses and systemic structures. By promoting and highlighting teacher-researcher partnerships as one avenue for improvement and transparency, the chapters in this book demonstrate the potential of translanguaging pedagogies in classrooms and further.
