Design for Environment as a Tool for the Development of a Sustainable Supply Chain Maurizio Bevilacqua, Filippo Emanuele Ciarapica, Giancarlo Giacchetta, 2012-01-05 Environmental Design is becoming an increasingly significant agenda for many manufacturing companies and yet there is no standard to their approaches strategies or their levels of execution Applying Design for Environment DfE methodologies to develop a more sustainable supply chain has formed procedures and techniques which allow designers to integrate these methods with environmental supply chain management Design for Environment as a Tool for the Development of a Sustainable Supply Chain aims to define relevant target specifications for a product throughout its life cycle from conception and design to the end of its operating life Be considering this new approach to the supply chain environmental responsiveness can work in tandem with sound business management The usual focus on suppliers manufacturers and customers is expanded in Design for Environment as a Tool for the Development of a Sustainable Supply Chain to include stakeholders such as government bodies and recycling companies The influence of these additional groups is analyzed alongside concepts such as Product life cycle development aimed at environmental impact minimization Supplier selection and management based on environmental criteria and Marketing and communication choices which increase the value of environmentally sensitive products By including several case studies alongside theoretical topics Design for Environment as a Tool for the Development of a Sustainable Supply Chains acts as a foundation for professionals across the supply chain from industrial designers to marketing and sales departments who are involved in environmental issues

The Last Fish Swimming Gohar A. Petrossian, 2019-05-17 This book examines the global local and specific environmental factors that facilitate illegal fishing and proposes effective ways to reduce the opportunities and incentives that threaten the existence of the world's fish Humans are deeply dependent on fishing globally fish comprise 15 percent of the protein intake for approximately 3 billion people and 8 percent of the global population depends on the fishing industry as their livelihood The global fishing industry is plagued by illegal fishing however and many highly commercial species such as cod tuna orange roughy and swordfish are extremely vulnerable Through criminological analysis The Last Fish Swimming emphasizes the importance of looking at specific environmental factors that make illegal fishing possible It examines such factors as proximity to known ports where illegally caught fish can be landed without inspection i.e. ports of convenience fisheries monitoring control and surveillance efforts formal surveillance and resource attractiveness in 53 countries that altogether represent 96 percent of the world's fish catch The book calls upon the global community to address the illegal depletion of the world's fish stock and other similar threats to the world's food supply and natural environment in order to ensure the

sustainability of the planet's fish and continuation of the legal fishing industry for generations to come **Fisheries Centre Research Reports** ,2006 **World Resources, 2005** World Resources Institute,2005 Ecosystems are or can be the wealth of the poor For many living in severe poverty there has always been a daily lifeline an asset for those with few other material assets This text argues that the generative power of nature can act as a fundamental stepping stone in the economic integration of the poor **Global Environment Outlook 4** United Nations Environment Programme,2007 The fourth report in the Global Environment Outlook series provides a comprehensive scientifically credible policy relevant and up to date assessment of and outlook for the state of the global environment Environment for development is the GEO 4 underlying theme and the report pays special attention to the role and impact of the environment on human well being as well as to the use of environmental valuation as a tool for decision making GEO 4's 2007 publication date marks the half way point for the Millennium Development Goals The environment as well as being the subject of MDG 7 is also a thread that runs through all the goals Includes Errata **Building Biodiversity Business** Joshua Bishop,2008 The challenge of building biodiversity business is not trivial Biodiversity is still largely neglected by private finance There is a need to develop new business models and market mechanisms for biodiversity conservation and to persuade the public and policymakers that biodiversity or component ecosystem services can be conserved on a commercial basis Based on extensive consultation and analysis the authors of this new report conclude that there are numerous pro biodiversity business opportunities that can generate positive financial returns as well as real biodiversity benefits *Fisch Salim M.
