Comparative Law Harold Cooke Gutteridge,1946

Concepts of Law Lukas Heckendorn Urscheler,2016-05-23

Debates surrounding the concept of law are not new For a wide variety of reasons and in a wide variety of ways the meaning of law has long been an important part of Western thought both within legal scholarship and beyond The contributors to Concepts of Law are international experts from the fields of comparative law legal philosophy and the social sciences Combining theoretical analyses with case studies they explore various legal concepts and contexts from diverse national and disciplinary perspectives Legal and normative pluralism is a theme throughout Some chapters discuss the development of state law and legal systems Others wrestle with law s rhetoric and the potential utility of alternative vocabularies e g governance and governmentality Others reveal the rich polyjurality of the present from the local to the global The result is a rich picture of both present scholarship on laws and norms and the state of contemporary legal complexity each crossing traditional boundaries

An Introduction to Comparative Law Theory and Method Geoffrey Samuel,2014-12-01 This short book on comparative law theory and method is designed primarily for postgraduate research students whose work involves comparison between legal systems It is accordingly a book on research methods although it will also be of relevance to all students undergraduate and postgraduate taking courses in comparative law and to academics entering the field of comparison The substance of the book has been developed over many years of teaching general theory of comparative law primarily on the European Academy of Legal Theory programme in Brussels but also on other programmes in French Belgian and English universities It is arguable that there has been to date no single introductory work exclusively devoted to comparative law methodology and thus this present book aims to fill this gap

Routledge Handbook of Socio-Legal Theory and Methods Naomi Creutzfeldt,Marc Mason,Kirsten McConnachie,2019-08-13

Drawing on a range of approaches from the social sciences and humanities this handbook explores theoretical and empirical perspectives that address the articulation of law in society and the social character of the rule of law The vast field of socio legal studies provides multiple lenses through which law can be considered Rather than seeking to define the field of socio legal studies this book takes up the experiences of researchers within the field First hand accounts of socio legal research projects allow the reader to engage with diverse theoretical and methodological approaches within this fluid interdisciplinary area The book provides a rich resource for those interested in deepening their understanding of the variety of theories and methods available when law is studied in its broadest social context as well as setting those within the history of the socio legal movement The chapters consider multiple disciplinary lenses including feminism anthropology and sociology as well as a variety of methodologies including narrative visual and spatial psychological economic and epidemiological approaches Moreover these are applied in a range of substantive contexts such as online hate speech environmental law biotechnology research in post conflict situations race and LGBT lawyers The handbook brings together younger contributors and some of the best known

names in the socio legal field It offers a fresh perspective on the past present and future of sociolegal studies that will appeal to students and scholars with relevant interests in a range of subjects including law sociology and politics Chapter 7 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Szczerbowski,2014-07-24 Comparative law is a research methodology which has been increasingly fashionable in recent decades as comparisons between common law and civil law have dominated the law studies landscape There are many methods of comparative law in use including comparison of legal rules comparison of cases and comparison of legal theories Each of these methods has strong proponents and opponents Dogmatic comparisons of rules are criticized for not giving the whole picture of law in action but praised for being the first and the only truly legal step in comparative research Case based comparisons are praised for enabling us to compare the true understanding of rules by courts yet the critics of this method point out that only the higher courts decisions are subject to comparison and most cases do not reach this stage Finally comparisons of legal theories are praised for enabling us to know the spirit of the laws yet opponents would argue that many countries sharing the same theory would draw opposite conclusions from it This book is a result of the attempted and successful introduction of comparative law into the region of Eastern and Central Europe The subject has induced interest beyond expectations This volume opens with a chapter on the unification of law both from the perspective of institutional unification by such supra state organizations spontaneous and institutionalized unifications between two or more legal systems and the methods of choosing the right rules in the unification process Chapters two and three follow the classical division of private and public law as proposed by the brilliant Roman lawyer Ulpian Overall the chapters in this book offer an interesting and engaging commentary on the current topics discussed by academics in Eastern and Central Europe *Advanced Introduction to Comparative Legal Methods* Monateri, Pier,2021-10-22 Drawing on historical normative theoretical and economic methodologies Pier Giuseppe Monateri offers a fresh critical analysis of various dimensions of comparative law methods Comprehensive and engaging with a multidisciplinary approach this *Advanced Introduction* spans the fields of comparative legal studies law and finance and global law Comparative Law Harold Cooke Gutteridge (juriste).),1971 **Introduction to Comparative Law** Johannes Michael Rainer,2010 **The Method and Culture of Comparative Law** Maurice Adams,Dirk Heirbaut,2014-12-01 Awareness of the need to deepen the method and methodology of legal research is only recent The same is true for comparative law by nature a more adventurous branch of legal research which is often something researchers simply do whenever they look at foreign legal systems to answer one or more of a range of questions about law whether these questions are doctrinal economic sociological etc Given the diversity of comparative research projects the precise contours of the methods employed or the epistemological issues raised by them are to a great extent a function of the nature of the research questions asked As a result the search for a unique one size fits all comparative law methodology is unlikely to be

fruitful That however does not make reflection on the method and culture of comparative law meaningless Mark Van Hoecke has throughout his career been interested in many topics but legal theory comparative law and methodology of law stand out Building upon his work this book brings together a group of leading authors working at the crossroads of these themes the method and culture of comparative law With contributions by Maurice Adams John Bell Joxerramon Bengoetxea Roger Brownsword Se n Patrick Donlan Rob van Gestel and Hans Micklitz Patrick Glenn Jaap Hage Dirk Heirbaut Jaakko Husa Souichirou Kozuka and Luke Nottage Martin L hnig Susan Millns Toon Moonen Francois Ost Heikki Pihlajam ki Geoffrey Samuel Mathias Siems J rn yrehagen Sunde Catherine Valcke and Matthew Grellette Alain Wijffels
