Early life

Main article Early life of William Wordsworth

The second of five children born to John Wordsworth and Ann Cookson William Wordsworth was born on 7 April 1770 in what is now named Wordsworth House in Cockermouth Cumberland part of the scenic region in northwestern England known as the Lake District William's sister the poet and diarist Dorothy Wordsworth to whom he was close all his life was born the following year and the two were baptised together They had three other siblings Richard the eldest who became a lawyer John born after Dorothy who went to sea and died in 1805 when the ship of which he was captain the Earl of Abergavenny was wrecked off the south coast of England and Christopher the youngest who entered the Church and rose to be Master of Trinity College Cambridge Wordsworth's father was a legal representative of James Lowther 1st Earl of Lonsdale and through his connections lived in a large mansion in the small town He was frequently away from home on business so the young William and his siblings had little involvement with him and remained distant from him until his death in 1783 However he did encourage William in his reading and in particular set him to commit large portions of verse to memory including works by Milton Shakespeare and Spenser William was also allowed to use his father's library William also spent time at his mother's parents' house in Penrith Cumberland where he was exposed to the moors but did not get along with his grandparents or his uncle who also lived there His hostile interactions with them distressed him to the point of contemplating suicide Wordsworth was taught to read by his mother and attended first a tiny school of low quality in Cockermouth then a school in Penrith for the children of upper class families where he was taught by Ann Birkett who insisted on instilling in her students traditions that included pursuing both scholarly and local activities especially the festivals around Easter May Day and Shrove Tuesday

William Wordsworth - The Excursion

William Wordsworth, 2015-12-01 William Wordsworth was born on 7 April 1770 in Cockermouth in Cumbria northwest England Wordsworth spent his early years in his beloved Lake District often with his sister Dorothy The English lakes could terrify as well as nurture and as Wordsworth would write I grew up fostered alike by beauty and by fear After being schooled at Hawkshead he went to St John's College Cambridge but not liking the competitive nature of the place idled his way through saying he was not for that hour nor for that place Whilst still at Cambridge he travelled to France He was immediately taken by the Revolutionary fervor and the confluence of a set of great ideals and rallying calls for the people of France In his early twenties he ventured again to France and fathered an illegitimate child He would not see that daughter till she was 9 owing to the tensions and hostilities between England and France There now followed a period of three to four years that plagued Wordsworth with doubt He was now in his early thirties but had no profession was rootless and virtually penniless Although his career was not on track he did manage to publish two volumes both in 1793 An Evening Walk and Descriptive Sketches This dark period ended in 1795 A legacy of 900 received from Raisley Calvert enabled Wordsworth to pursue a literary career in earnest In 1797 he became great friends with a fellow poet Samuel Taylor Coleridge They formed a partnership that would change both their lives and the course of

English poetry Their aim was for a decisive break with the strictures of Neoclassical verse In 1798 the ground breaking Lyrical Ballads was published Wordsworth wrote in the preface the spontaneous overflow of powerful feelings it takes its origin from emotion recollected in tranquillity Most of the poems were dramatic in form designed to reveal the character of the speaker Thus the poems set forth a new style a new vocabulary and new subjects for poetry Coleridge had also conceived of an enormous poem to be called The Brook in which he proposed to treat all science philosophy and religion but soon laid the burden of writing it to Wordsworth To test his powers for that endeavour Wordsworth began writing the autobiographical poem that would absorb him for the next 40 years and which was eventually published as The Prelude or Growth of a Poet's Mind By the 1820s the critical acclaim for Wordsworth was growing but perhaps his best years of work were behind him Nonetheless he continued to write and to revise previous works With the death in 1843 of his friend and Poet Laureate Robert Southey Wordsworth was offered the position He accepted despite saying he wouldn't write any poetry as Poet Laureate And indeed he didn't Wordsworth died of pleurisy on 23 April 1850 He was buried in St Oswald's church Grasmere
