Teaching Mathematics for the 21st Century Linda Huetinck,Sara N. Munshin,2008

This third edition of Teaching Mathematics for the 21st Century continues to help teachers let the secret out to open up to their students the wonderful discoveries and challenges of the pattern making and problem solving aspects of a fascinating subject

mathematics The rationale remains the same to enable prospective and current teachers to access and use tools and strategies to effectively teach mathematics to contemporary students

Changing demographics knowledge of how people learn and technology all impact the way we educate our young people

This edition incorporates lessons and strategies from programs that have proven success in many types of classrooms

Many of these examples help students connect mathematics to real life situations and communicate their understanding of the underlying concepts

Although technology is constantly being upgraded ways to increase student motivation through its application remains a goal

For example since applets can enhance a lesson whether the teacher uses a computer projector a smart board or has students work individually on computers we have identified several sources of mathematics applets that can be correlated to various lessons

Research citations and summaries have been updated to reflect current information on teaching and learning

For future teachers
