The Existential Import of Categorical Predication A. Wolf, 2014-07-24 Originally published in 1905 this book presents a discussion regarding the nature of the subject predicate relationship or more specifically the Existential Import of Predication Textual notes are incorporated throughout This book will be of value to anyone with an interest in logic and the development of philosophy The Existential Import of Categorical Predication; Studies in Logic Abraham Wolf, 2013-09 This historic book may have numerous typos and missing text Purchasers can usually download a free scanned copy of the original book without typos from the publisher Not indexed Not illustrated 1905 edition Excerpt copula and is as existential predicate Following Aristotle they maintain that we can not legitimately infer *Homerus est* from *Homerus est poeta* *Secundum accidens enim praedicatur esse de Homero quod est poeta sed non secundum se praedicatur de Homero quod est*<sup>1</sup> Moreover when these supporters of the theory of universal existential implication of categorical propositions come to apply their theory to particular instances then they save the appearance of consistency only by resorting to such ways of escape as are suggested by the arguments dealt with in the preceding sections namely that the ultimate subject is real or that the subject within the judgment has at all events logical or ideal existence or that it exists in some universe of discourse even when it does not exist in the world of reality But these as we have already seen are only irrelevant makeshifts <sup>13</sup> The Categorical And The Hypothetical Form Of Judgment One more view we must deal with in conclusion Ueberweg<sup>2</sup> and others maintain against Herbart <sup>1</sup> Aristotle *Hermeneutica* cap xi and the parallel passages in Boethius Abelard etc Compare also De Morgan *Formal Logic* p 63 The most common uses of the verb are first absolute identity as in the thing he sold you is the one I sold him secondly agreement in a certain particular or particulars understood as in He is a negro said of a European in reference to his colour thirdly possession of a quality as in the rose is red fourthly reference of a species to its genus as in man is an animal All these uses are independent of the use of the verb alone denoting existence as in man is i e exists *Logik* 68 and 85 pp 167 f and 238 f in 4th ed Drobisch The Existential Import of Categorical Predication Abraham Wolf, 1905

*Aristotle's Syllogism and the Creation of Modern Logic* Lukas M. Verburgt, Matteo Cosci, 2023-01-26 Offering a bold new vision on the history of modern logic Lukas M Verburgt and Matteo Cosci focus on the lasting impact of Aristotle s syllogism between the 1820s and 1930s For over two millennia deductive logic was the syllogism and syllogism was the yardstick of sound human reasoning During the 19th century this hegemony fell apart and logicians including Boole Frege and Peirce took deductive logic far beyond its Aristotelian borders However contrary to common wisdom reflections on syllogism were also instrumental to the creation of new logical developments such as first order logic and early set theory This volume presents the period under discussion as one of both tradition and innovation both continuity and discontinuity Modern logic broke away from the syllogistic tradition but without Aristotle s syllogism modern logic would not have been born A vital follow up to *The Aftermath of Syllogism* this book traces the longue dur e history of syllogism from Richard Whately s revival of formal logic in the 1820s through the work of David Hilbert and the G ttingen school up to the 1930s Bringing together a group of major international experts it sheds crucial new light on the emergence of modern logic and the roots of analytic philosophy in the 19th and early 20th centuries
