Simple Book of Profound Truths Matthew L. Williams M.A. Ph.D.,2011-08-04 This book is a revolutionary text for revolutionary spiritual times Facing imminent global financial collapse and great adversity for the foreseeable future people will need a powerful faith in God just to survive But who can have great faith if they dont know anything about God and how he works in our lives or if he even exists God reveals spiritual knowledge to mankind not in an even continuous flow but in rare bursts or quantum leaps forward The last such spiritual burst in Christianity occurred almost 2000 years ago with the teachings of the New Testament Since then virtually no progress has been made in terms of spiritual insight into the Bible Even worse scholars today dont understand very well Gods lessons from the last burst Thats why youll find even prominent Christian teachers still debating such basic spiritual concepts as the following Can non Christians be saved What is the role of science and especially evolution in relation to the Bible What roles do free will and predestination play in our lives and salvation Unfortunately while Christian spirituality has remained stuck in the past mankind has pushed ahead into the twenty first century With the explosive growth of knowledge science and global communications Christianity must improve the way it addresses peoples spiritual concerns or face irrelevance and eventual extinction This book represents a revolution in spiritual understanding that takes Christianity into the twenty first century and beyond It is the latest burst of spiritual insight 2000 years in coming Mankinds oldest and most vexing spiritual questions are answered here in full accord with logic science and reason In addition the reader will find new insights into understanding the Bible living a spiritual life and for the first time ever a new vision of Bible prophecy and the end of the world There is no book like this **Down to Earth** ,2008
