## Eos 350d Manual:

*Canon EOS Digital Rebel XT/EOS 350D* Michael Guncheon, 2005 Canon's newest digital camera is going to be hot hot hot. It's high quality, reasonably priced, lightweight, and constructed to feel comfortable in the hand. And the many avid amateurs snatching up this great equipment will want to understand how to get the most of every one of its state-of-the-art features from its superb resolution to its super fast speed. This Magic Lantern Guide has the answer to all their questions because it explains in detail how to use all the wonderful enhancements: its ability to save large and fine resolution images direct to the CompactFlash Card, its user-selectable metering, and its single-plate high-sensitivity, high-resolution color CMOS imaging sensor technology.

*A User's Guide to the Meade LXD55 and LXD75 Telescopes* Martin Peston, 2010-04-28 I have owned telescopes for over 25 years since I was a young lad. I purchased an LXD55 AR 6 Refractor in 2002 and was one of the first to own one in the UK. I am also a proud owner of an LXD75 SC 8. Armed with these two very different telescopes, I have spent many hours searching the skies for interesting objects using Meade's Autostar Goto facility. My motivation to write a book about the LXD Goto telescope series first came from comments about an LXD55 AR 6 Refractor review that was published on the LXD55.com website. From then on, I have had regular emails from people asking technical questions about the telescope and which model is best suited for them. Whilst attending Star parties in the UK, I found that many LXD owners would struggle to use them even at a basic level, especially if they have never owned or used an equatorially mounted Goto telescope before. Since the first LXD55 models came out in early 2002, owners have struggled to find useful information to help them use the telescopes to the best advantage. There have been mixed reactions about its quality and performance. Hence, this book is directed towards those who are new to Goto and the LXD telescope.
