**This Is Your Brain on Sex** Kayt Sukel, 2013-03-26 Previously published as *Dirty Minds* How Our Brains Influence Love Sex and Relationships PHILOSOPHERS THEOLOGIANs ARTISTS AND BOY BANDS HAVE WAXED poetic for centuries about the nature of love But what does the brain have to say about the way we carry our hearts In the wake of a divorce science writer and single mother Kayt Sukel made herself a guinea pig in the labs of some unusual love experts to find out *This Is Your Brain on Sex* is her lively and hilarious examination of the big questions about love and sex previously published in hardcover as *Dirty Minds* Each chapter of this edgy romp through the romantic brain looks at a different aspect of love above the belt What in your brain makes you love someone or simply lust after them Why do good girls like bad boys Is monogamy practical How thin is that line between love and hate After reading this gimlet eyed look at love sex and the brain you ll never look at romance the same way again

**The Virility Paradox** Charles J. Ryan, 2018-02-27 Testosterone makes us stronger happier and smarter It also makes us meaner more violent and more selfish A scientific look into the vast and unexpected influence testosterone has on our behavior our society and our bodies The brain of every man and every woman is shaped by this tiny molecule from before birth it propels our drive for exploration and risk for competition and creation and even our survival The effects of testosterone permeate the traditions philosophy and literature of every known culture without it the world would be a drastically different place Testosterone also has a role in humanity s darker side contributing to violence hubris poverty crime and selfishness Recent revelations of the science of testosterone show that high levels will deplete compassion and generosity and even reduce the affection we show our children In *The Virility Paradox* internationally renowned oncologist and prostate cancer researcher Charles Ryan explores this complex chemical system responsible for a diverse spectrum of human behaviors and health in both men and women Ryan taps his vast experience treating prostate cancer with testosterone lowering therapy observing that this often leads to profound changes in the patients perspectives on their lives

and relationships Often for the better Ryan uses the journeys of these patients and others to illustrate the vast and sometimes unexpected influence testosterone has on human lives Through the stories of real men and women he also explores the connections between testosterone and conditions like dementia autism and cancer as well as the biological underpinnings of sexual assault and the effects it has on everything from crime to investing to everyday choices we make Integrating the molecular and the medical sociology and storytelling The Virility Paradox offers a fascinating look at how one hormone has shaped history and the connections between our biology our behavior and our best selves Brain Changer David Disalvo,2013-11-19 Let s be honest You ve tried the sticky note inspirations the motivational calendar and the cute but ineffective carpe diem mug yet your attitude hasn t changed It s time to apply cutting edge science to the challenges of daily life While everyone desires self improvement we are quickly frustrated when trying to implement the contradictory philosophies of self appointed self help gurus Too often their advice is based on anecdote and personal opinion not real research Bestselling author of What Makes Your Brain Happy and Why You Should Do the Opposite David DiSalvo returns with Brain Changer How Harnessing Your Brain s Power to Adapt Can Change Your Life Drawing on the latest research in neuroscience cognitive psychology behavioral economics communications and even marketing DiSalvo replaces self help with science help He demonstrates how the brain s enormous capacity to adapt is the most crucial factor influencing how we feel and act a factor that we can control to change our lives Findings show our brains are fluid and function much like a feedback loop stimulants from both our environment and from within ourselves catalyze changes in the brain s response That response then elicits additional inputs that the brain identifies and analyzes to further tailor its response DiSalvo shows that the greatest internal tool we have to affect the feedback loop is metacognition thinking about thinking Littered with relatable examples and tackling major aspects of our lives including relationships careers physical health and personal development Brain Changer shows you how to harness metacognition to enrich your life *The Art of Risk* Kayt Sukel,2016 Are risk takers born or made Why are some more willing to go out on a limb so to speak than others How do we weigh the value of opportunities large or small that may have the potential to change the course of our lives These are just a few of the questions that author Kayt Sukel tackles applying the latest research in neuroscience and psychology to compelling real world situations Building on a portfolio of work that has appeared in such publications as Scientific American Atlantic Monthly The Washington Post and more Sukel offers an in depth look at risk taking and its role in the many facets of life that resonates on a personal level Smart progressive and truly enlightening The Art of Risk blends riveting case studies and hard hitting science to explore risk taking and how it impacts decision making in work play love and life providing insight in understanding individual behavior and furthering personal success
