Peru Kieran Falconer, Lynette Quek, Debbie Nevins, 2016-07-15 Peru is a unique country with ancient origins dense rain forests vast mountains dry deserts and diverse wildlife Long before the first Europeans arrived Peru was home to the Inca civilization a successful and powerful group of people This civilization vanished however when the Spanish conquered the area in the 1500s Since then Peru has adapted many Spanish customs beliefs and traditions however in some areas ancient

architectural studies have dedicated a lot of their time and knowledge to figuring out how ancient groups of people who did not use advanced tools or even the wheel could create such structures The most advanced chisels and hammers of the time would have been created from copper stone and wood With these simple hand tools people dug granite andesite and porphyry out of quarries After transporting them to the final locations they then carved them with smooth precision so they would fit together almost seamlessly What techniques could these ancient experts use to make such flat and smooth surfaces exact angles and joints that would not allow a single blade of grass to squeeze between Historians can only guess about some of the methods that allowed for such unique stone cutting and building styles
