Landscape Painting Mitchell Albala, 2011-11-15 Because nature is so expansive and complex so varied in its range of light landscape painters often have to look further and more deeply to find form and structure value patterns and an organized arrangement of shapes In Landscape Painting Mitchell Albala shares his concepts and practices for translating nature s grandeur complexity and color dynamics into convincing representations of space and light Concise practical and inspirational Landscape Painting focuses

on the greatest challenges for the landscape artist such as Simplification and Massing Learn to reduce nature's complexity by looking beneath the surface of a subject to discover the form's basic masses and shapes Color and Light Explore color theory as it specifically applies to the landscape and learn the various strategies painters use to capture the illusion of natural light Selection and Composition Learn to select wisely from nature's vast panorama Albala shows you the essential cues to look for and how to find the most promising subject from a world of possibilities The lessons in Landscape Painting based on observation rather than imitation and applicable to both plein air and studio practice are accompanied by painting examples demonstrations photographs and diagrams Illustrations draw from the work of more than 40 contemporary artists and such masters of landscape painting as John Constable Sanford Gifford and Claude Monet Based on Albala's 25 years of experience and the proven methods taught at his successful plein air workshops this in depth guide to all aspects of landscape painting is a must have for anyone getting started in the genre as well as more experienced practitioners who want to hone their skills or learn new perspectives

Art Schooled Larry Witham, 2012-01-01 One year in the life of the students teachers and artists at one of the nation's oldest and most prestigious art colleges

Portrait Painting Atelier Suzanne Brooker, 2011-11-15 The art of portraiture approached its apex during the sixteenth century in Europe with the discovery of oil painting when the old masters developed and refined techniques that remain unsurpassed to this day The ascendance of nonrepresentational art in the middle of the twentieth century displaced these venerable skills especially in academic art circles Fortunately for aspiring artists today who wish to learn the methods that allowed the Old Masters to achieve the luminous color and subtle tonalities so characteristic of their work this knowledge has been preserved in hundreds of small traditional painting ateliers that persevered in the old ways in this country and throughout the world Coming out of this dedicated movement Portrait Painting Atelier is an essential resource for an art community still recovering from a time when solid instruction in art technique was unavailable in our schools Of particular value here is a demonstration of the Old Masters technique of layering paint over a toned ground surface a process that builds from the transparent dark areas to the more densely painted lights This method unifies the entire painting creating a beautiful glow that illuminates skin tones and softly blends all the color tones Readers will also find valuable instruction in paint mediums from classic oil based to alkyd based the interactive principles of composition and photograph based composition and the anatomy of the human face and the key relationships among its features Richly illustrated with the work of preeminent masters such as Millet Gericault and van Gogh as well as some of today's leading portrait artists and featuring seven detailed step by step portrait demonstrations Portrait Painting Atelier is the first book in many years to so comprehensively cover the concepts and techniques of traditional portraiture
