melody line into another song In the beginning you will probably unknowingly replace and ending run These are the last two measures of the section of a tune Many of them in the same key are interchangeable unless they are specific to the melody of the song After a while you will cut out measures in the middle of the song and then you will be able to take the snips of melodies and play them in another song in a different key thus beginning to improvise All of this is possible because you built up your repertoire of tunes
