The Ethnographer's Method Alex Stewart, 1998-06-17 In this volume Alex Stewart shows novice and experienced ethnographers how to explain and present the methods they use in terms understood by those not in the field

Airi-Alina Allaste, Katrin Tiidenberg, 2015-02-05 This collection of fifteen methodological texts by a group of thirty international youth and social researchers is a polyphony of scholarly voices advancing the field of qualitative inquiry in youth studies The book homes in on ways of adapting remixing and reconsidering qualitative methods in order to better serve youth researchers in the twenty first century The texts included in this collection offer honest and open accounts of searching for assembling testing and rejecting creative well known or unconventional techniques from various methodical homes As is emphasized in the title this is not so much an overview as an inquiry into conducting youth research in an environment that is constantly transforming Researchers are always seeking out the best ways to capture and co produce meaning that can be used for the greater good This book offers fresh interpretations of and feedback on inventive combinations of methods research questions and theoretical frameworks It will be of interest to all who work in youth studies and sociology and particularly useful to postgraduate students junior scholars and established

researchers seeking to branch out into new terrain *Field Notes* J. H. Prynne, 2007 **Qualitative Analysis in the Making** Daniella Kuzmanovic, Andreas Bandak, 2014-10-10 How do scholars transform qualitative data into analysis What does making analysis imply What happens in the space in between data and finalized analysis is notoriously difficult to talk about In other parts of the research process scholars and students are aided by method books that describe the technicalities of generating processing and sorting through data handbooks that teach academic writing and scholarly works that offer meta level theoretical perspectives Yet the path from qualitative data to analysis remains a black box Qualitative Analysis in the Making ventures into this black box The volume provides a means of speaking about how analyses emerge in the Humanities Contributors from disciplines such as anthropology history and sociology of religion all employ an analytical double take They revisit one of their analyses analyzing how this particular analysis came into being Such analyses of an analysis are neither confessions nor step by step recounts of what happened Rather the volume argues that speaking of the space in between requires analytical displacement and the employment of fresh analytical takes This approach contributes to demystifying the path from qualitative data to finalized analysis It invites novel epistemological reflections among scholars and assists students in improving their analytical skills **Journal of Contemporary Ethnography**, 1990

Ethnography: Ethnographic fieldwork practice Alan Bryman, 2001 **A Room Full of Mirrors** Keiko Ikeda, 1998 Drawing on candid personal narratives derived from reunions ranging from the fifth to the fiftieth this pathbreaking book demonstrates that for many Americans the high school reunion is a rich poignant experience and a dramatic moment in the construction of self and meaning in adulthood **Journal of the Anthropological Society of Oxford** Anthropological Society of Oxford, 2002 *Fieldwork: The fieldwork experience: methods and methodology* Christopher John Pole, 2005

American Anthropologist, Volume 97, Number 3, 1995 **Blue Mountains Revisited** Paul Hockings, 1997 This Book Consists Of Twelve Papers Which Focus On The Nilgiri Region And Its People As A Whole Which Provides A Broad Canvas For Understanding The Various Communities That Live There *Quarry West*, 1998 **Ethnography** Harry F. Wolcott, 1999-06-29 Harry Wolcott one of anthropology s leading writers on ethnographic methods here addresses the nature of the ethnographic enterprise itself Tracing its development from its disciplinary origins in sociology and anthropology he helps the reader understand what is distinctive about ethnography and what it means to conduct research in the ethnographic tradition In this engaging thought provoking book he distinguishes ethnography as more than just a set of field methods and practices separating it from many related qualitative research traditions as a way of seeing through the lens of culture For both beginning and experienced ethnographers in a wide range of disciplines Wolcott s book will provide important ideas for improving research practice *Film as Ethnography* Peter Ian Crawford, David Turton, 1992 This work examines the reasons why anthropologists have not used the camera as a research instrument or film as a means of communicating ethnographic knowledge It suggests that images and words in this discipline operate on different logical

levels that they are hierarchically related that whereas writings may encompass the images produced by film the inverse of this cannot be true The author argues for this position further by suggesting that the visual is to the written mode as thin description giving a record of the form of behaviour is to thick description giving an account of meaning
