Ritual Servitudes and Christian Social Practices in Ghana David Stiles-Ocran,2022-10-21 This book explores the kinds of Christian service or diaconia that develop in non institutionalized practices for supporting survivors of indigenous ritual servitude or Trokosi in Africa Drawing on empirical research from Ghana it examines the possibilities of freedom equality and dignity for liberated Trokosi and the manner in

which these women's experiences constitute a repudiation of dominant patriarchal family systems. With close attention to the work of indigenous parachurches which function outside of institutionalized churches in challenging the contemporary practice of ritual slavery and offering its survivors a lived space in which they need not remain hidden as they seek restoration and integration into wider society. *Ritual Servitudes and Christian Social Practices in Ghana* will appeal to scholars of sociology, theology and religion with interests in gender, contemporary ministries and African religion.

Handbook of Feminist Research Sharlene Nagy Hesse-Biber, 2007 The topic feminist research has too often been neglected in standard research methods books The Handbook of Feminist Research represents the establishment of a new tradition or paradigm in viewing how the research process is implemented Feminist researchers bring unique epistemological and methodological perspectives to the research process Feminists approach to methodology allows for new types of questions about women s lives and those of other ed marginalized groups to be addressed within their respective fields of research This Handbook stresses the interconnections between epistemology methodology and methods They are not de linked from each other but work together in dynamic ways to produce new knowledge and this openness itself is also characteristic of how feminist researchers approach their work Feminists engage synergistically with all three aspects of the research process epistemology methodology and method Through a synergistic connection between these elements of research epistemology methodology and method we find that feminist research often shapes new research endeavors that are greater than the sum of their parts In other words while traditional research employs these components of research the synergistic engagement of these components in feminist research questions the status quo aiming to raise our consciousness about how we do research Looking at the selections provided in this Handbook we are able to look at feminist research its implementation of synergistic use of epistemology methodology and method and the resulting qualities of feminist research in practice
