The Greatest and Deadliest Hurricanes to Impact the Bahamas Wayne Neely, 2019-12-09 The Bahamas is ideally located directly in the path of hurricanes in the North Atlantic These massive tropical cyclones have been ravaging the Bahamas since the Lucayan Indians blessed these islands with their presence Now for the very first time these greatest and deadliest Bahamian hurricanes have been presented and documented in book form Such named storms include Hurricanes Andrew Floyd Donna Dorian David Matthew Betsy Frances Jeanne and Wilma While other unnamed storms include The Great Nassau Hurricane of 1926 The Great Abaco Hurricane of 1932 The Great Bahamas Hurricane of 1866 The Great Okeechobee Hurricane of 1928 and The Great Andros Island Hurricane of 1929 The Bahamas hurricane season which lasts from June to November has seen plenty of catastrophic storms throughout history Here's a look at some of the greatest and deadliest storms that have hit the Bahamas over the past five centuries

The Great Hurricane of 1780 Wayne Neely, 2012-09-17 The Great Hurricane of 1780 also known as Hurricane San Calixto II is one of the most powerful and deadliest North Atlantic hurricanes on record Often regarded as a cataclysmic hurricane the storm's worst effects were experienced on October 10 1780 In *The Great Hurricane of 1780* author Wayne Neely chronicles the chaos and destruction it brought to the Caribbean This storm was likely generated in the mid Atlantic not far from the equator it was first felt in Barbados where just about every tree and house on the island was blown down The storm passed through the Lesser Antilles and a small portion of the Greater Antilles in the Caribbean between October 10 and October 16 of 1780 Because the storm hit several of the most populous islands in the Caribbean the death toll was very high The official death toll was approximately 22 000 people but some historians have put the death toll as high as 27 500 Specifics on the hurricane's track and strength are unclear since the official North Atlantic hurricane database only goes back as far as 1851 Even so it is a fact that this hurricane had a tremendous impact on economies in the Caribbean and parts of North America and perhaps also played a major role in the outcome of the American Revolution This thoroughly researched history considers the intense storm and its aftermath offering an exploration of an important historical weather event that has been neglected in previous study

Natural Hazards and Peoples in the Indian Ocean World Greg Bankoff, Joseph Christensen, 2016-07-09 This book examines the dangers and the patterns of adaptation that emerge through exposure to risk on a daily basis By addressing the influence of environmental factors in Indian Ocean World history the collection reaches across the boundaries of the natural

and social sciences presenting case studies that deal with a diverse range of natural hazards fire in Madagascar drought in India cyclones and typhoons in Oman Australia and the Philippines climatic variability storms and flood in Vietnam and the Philippines and volcanic eruptions earthquakes and tsunamis in Indonesia These chapters written by leading international historians respond to a growing need to understand the ways in which natural hazards shape social economic and political development of the Indian Ocean World a region of the globe that is highly susceptible to the impacts of seismic activity extreme weather and climate change

Meteorology ,1971 **Tensions of Social History** Alessandro Stanziani,2022-12-15 This book seeks to overcome the tension between western and non western categories and tools in the study of global history showing how most western approaches to the social sciences and history have developed through transnational and colonial interactions Offering a transnational and global history of the main tools we have to understand the word and its transformations over the last three centuries **Tensions of Social History** explores the construction of archives and historical memory the making of statistics and their use in politics the identification of social actors and the emergence of key social theories Providing key insights into how to write history and develop social sciences in the global era while avoiding eurocentrism and cultural exceptionalism this ambitious book shows how global history is made of encounters rather than confrontations between civilizations

Meteorology Steven A. Ackerman,John Knox,2012 Written for the undergraduate non majors course the Third Edition engages students with real world examples and a captivating narrative It highlights how we observe the atmosphere and then uses those discoveries to explain atmospheric phenomena Early chapters discuss the primary atmospheric variables involved in the formation of weather pressure temperature moisture clouds and precipitation and include practical information on weather maps and weather observation The remainder of the book focuses on weather and climate topics such as the interaction between atmosphere and ocean severe extreme weather and climate change
