Discussions On Ego Identity:

Discussions on Ego Identity Jane Kroger, 2014-09-19 Identity has been a topical issue in both popular and social science literatures for the past forty years. The writings of Erik Erikson on the identity formation process of late adolescence have provided an important theoretical foundation to clinical counseling and educational practices. As the literature on adolescent development has burgeoned over the last three decades, so have efforts to understand more systematically the means by which young people find their occupational, religious, political, sexual, and relational roles in life. One of the most popular research traditions to spring from Erikson's clinical observations has been the ego identity status approach developed by James Marcia. This approach has expanded Erikson's concept of identity to describe four distinct styles by which adolescents and adults deal with identity-defining issues. The present volume reflects the most recent efforts of social scientists who have contributed further to the work that Erikson and Marcia began: an exhaustive analysis of the issues inherent in the adolescent identity formation process.

Ego Identity James E. Marcia, Alan S. Waterman, David R. Matteson, Sally L. Archer, Jacob L. Orlofsky, 2012-12-06 Ego Identity: A Handbook for Psychosocial Research contains an integrated presentation of identity theory, literature reviews covering the hundreds of research studies on identity, a discussion of the techniques of interviewing for psychosocial constructs, and model Identity Status Interviews and scoring manuals for three age groups: early and middle adolescence, the college years, and adulthood. Special attention is devoted to questions of the personality and social patterns associated with differing approaches to the task of identity formation, the processes and patterns of identity development, and the similarities and differences with which females and males form their sense of identity. Theory and research on Erikson's concept of intimacy is presented, including the Intimacy Status Interview and scoring manual. This handbook is also designed to serve as a model for those interested in developing and using interview techniques for any of the other Eriksonian stages of psychosocial development. This book is ideal for researchers of ego identity and intimacy, practitioners, and graduate students in developmental personality and social psychology, as well as to psychiatrists.

Identity in Adolescence Jane Kroger, 1996 Jane Kroger presents an updated and expanded critique of five of the most important theorists addressing adolescent identity: Erickson, Blom, Kohlberg, Loevinger, and Kegan.

Identity and Marginality in India Anwesha Ghosh, 2018-12-07 Decades of conflict and war have forced millions of men, women, and children to flee from their homes and seek refuge in other parts of the country or in foreign lands. Afghanistan is one such country. This book is a study of the displaced Afghan migrant population in India, in particular the persecuted Sikhs and Hindus who are religious minorities in Afghanistan and make up a majority of Afghan migrants in India. It explores the relationship between acculturation and identity development. By focusing on the interactions between the Afghan immigrant population and the Indian society, the author analyses how the community negotiates identity and marginality in a country that does not recognize them as refugees. The author explains how the Afghan migrant population manages and negotiates

various identities bestowed upon them by the societies in their home and host countries in their day to day existence in India. An important study of acculturation and adaptation issues of migrant groups in the setting of a developing country, this book will be of interest to academics in the field of refugee and migration studies, ethnography of ethnic identity and Middle East and South Asian Studies.
