Displacement Beyond Conflict Challenges For The 21st Century:

Displacement Beyond Conflict Christopher McDowell, Gareth Morrell, 2010-12-01 There is growing political concern about the increasing numbers of people displaced both within the borders of their countries and internationally This volume explores the interrelated drivers of contemporary global displacement with a particular focus on low level conflict climatic and environmental change and infrastructure development The authors examine the governance of global displacement assessing the protection needs and responses of national governments and the international community It further considers options for improving the humanitarian and political management of this growing problem **The Oxford Handbook of**

Refugee and Forced Migration Studies Elena Fiddian-Qasmiyeh, Gil Loescher, Katy Long, Nando Sigona, 2014-06-12 Refugee and Forced Migration Studies has grown from being a concern of a relatively small number of scholars and policy researchers in the 1980s to a global field of interest with thousands of students worldwide studying displacement either from traditional disciplinary perspectives or as a core component of newer programmes across the Humanities and Social and Political Sciences Today the field encompasses both rigorous academic research which may or may not ultimately inform policy and practice as well as action research focused on advocating in favour of refugees needs and rights This authoritative Handbook critically evaluates the birth and development of Refugee and Forced Migration Studies and analyses the key contemporary and future challenges faced by academics and practitioners working with and for forcibly displaced populations around the world The 52 state of the art chapters written by leading academics practitioners and policymakers working in universities research centres think tanks NGOs and international organizations provide a comprehensive and cutting edge overview of the key intellectual political social and institutional challenges arising from mass displacement in the world today The chapters vividly illustrate the vibrant and engaging debates that characterize this rapidly expanding field of research and practice [The Handbook of Displacement](#) Peter Adey, Janet C. Bowstead, Katherine Brickell, Vandana Desai, Mike Dolton, Alasdair Pinkerton, Ayesha Siddiqi, 2020-12-11 This Handbook provides the knowledge and tools needed to understand how displacement is lived governed and mediated as an unfolding and grounded process bound up in spatial inequities of power and injustice The handbook ensures first that internal displacements and their everyday re occurrences are not overlooked second it questions who counts by including displaced people who are less obviously identifiable and a clearly circumscribed or categorised group third it stresses that while displacement suggests mobility there are also periods and spaces of enforced stillness that are not adequately reflected in the displacement literature and fourth it re evokes and explores the place in displacement by critically interrogating peoples right to place and the significance of placemaking unmaking and remaking in the contemporary world The 50 plus chapters are organised across seven themes designed to further develop interdisciplinary study of the technologies journeys traces governance more than human representation and resisting of displacement Each of these thematic sections begin with an intervention which spotlights actions to creatively

and strategically intervene in displacement The interventions explore myriad meanings and manifestations of displacement and its contestation from the perspective of displaced people artists writers activists scholar activists and scholars involved in practice oriented research The Handbook will be an essential companion for academics students and practitioners committed to forging solidarity care and home in an era of displacement Displaced O. Bennett,C. McDowell,2012-04-09 A collection of oral histories that reveal the loss of cultural continuity identity shifts in family responsibilities gender roles and fractured relationships between generations that are just some of the challenges people face as they attempt to rebuild lives and communities

Development-Induced Displacement and Resettlement Bogumil Terminski,2014-05-01 This book explores the issue of development induced resettlement with a particular emphasis on the humanitarian legal and social aspects of this problem Today so called development induced displacement and resettlement DIDR is one of the dominant causes of internal spatial mobility worldwide Each year over 15 million people are forced to abandon their homes to make space for economic development infrastructure The construction of dams and irrigation projects the expansion of communication networks urbanization and re urbanization the extraction and transportation of mineral resources forced evictions in urban areas and population redistribution schemes count among the many possible causes Terminski aims to present the issue of development caused displacement as a highly diverse global social problem occurring in all regions of the world As a human rights issue it poses a challenge to public international law and to institutions providing humanitarian assistance A significant part of this book is devoted to the current dynamics of development caused resettlement in Europe which has been neglected in the academic literature so far *Protecting the Internally Displaced* Phil Orchard,2018-11-01 Today there are over 40 million conflict induced internally displaced persons IDPs globally almost double the number of refugees Yet IDPs are protected only by the soft law Guiding Principles on Internal Displacement at the global level Instead of a dedicated international organization IDPs receive protection and assistance only through the UN s cluster approach Orchard argues that while an international IDP protection regime exists many aspects of it are informal with IDP issues bound up in a humanitarian regime complex that divides the mandates of key organizations and even the question of IDP status itself While the Guiding Principles mark an important step forward implementation of laws and policies based on them at the domestic level remains haphazard Action at the international level similarly reflects an all too often ad hoc approach to IDP issues Through an in depth examination of IDP efforts at the international level and across the forty states which have adopted IDP laws and policies Orchard argues that while progress has been made new and greater monitoring and accountability mechanisms at both the domestic and international levels are critical This work will be valuable to scholars students and practitioners of forced migration international relations theory and the Responsibility to Protect doctrine

Promoting sustainable local economic development initiatives Marius Venter,2022 This book endeavours to outline case studies that promote sustainable Local Economic Development LED initiatives It is generally believed that local governments

are the foot soldiers of LED However this seems to be a myth as local governments in South Africa and elsewhere have not yet fulfilled this mandate and have been struggling for several years to implement LED initiatives The distinctive merit of this book lies in the way it combines the South African context with the wider international development context in ways that there is a flow of information and ideas both ways The book is an essential part of this sequence of ideas development and action at a critical time for strategic action directed at a sustainable future It showcases case studies and responses to the impacts of globalisation as a bridge between urban rural and institutional action and reveals avenues for local government leadership in communities research student engagement and wider interactions

The Handbook of Contemporary Cambodia Katherine Brickell, Simon Springer, 2016-09-13 Offering a comprehensive overview of the current situation in the country The Handbook of Contemporary Cambodia provides a broad coverage of social cultural political and economic development within both rural and urban contexts during the last decade A detailed introduction places Cambodia within its global and regional frame and the handbook is then divided into five thematic sections Political and Economic Tensions Rural Developments Urban Conflicts Social Processes Cultural Currents The first section looks at the major political implications and tensions that have occurred in Cambodia as well as the changing parameters of its economic profile The handbook then highlights the major developments that are unfolding within the rural sphere before moving on to consider how cities in Cambodia and particularly Phnom Penh have become primary sites of change The fourth section covers the major processes that have shaped social understandings of the country and how Cambodians have come to understand themselves in relation to each other and the outside world Section five analyses the cultural dimensions of Cambodia's current experience and how identity comes into contact with and responds to other cultural themes Bringing together a team of leading scholars on Cambodia the handbook presents an understanding of how sociocultural and political economic processes in the country have evolved It is a cutting edge and interdisciplinary resource for scholars and students of Southeast Asian Studies as well as policymakers sociologists and political scientists with an interest in contemporary Cambodia
