Divine Programmer II Humans Reality:

The Divine Programmer II Ed Rychkun, 2015-12-04 In this sequel to *The Divine Programmer Creating Miracles* the authors will take you out of the norm of the prevailing consciousness and answer radical questions like Is our reality a holographic illusion Are we living in a grand immersion movie Did we create and contract for our Life Plan Why do miracles work some of the time How do placebos create dramatic healing miracles What is the process most common in miracle healing How can we proactively control our reality What is the physiological process of mind over matter Who or what is Divine Intervention How do we unlock the full potential of DNA Learn how the brain as directed by the subconscious mind is the CEO of our physical reality and how it evolves through stages of evolution to the age of 28 Learn how neurological processes open or limit the ability to proactively create new reality or default to old prevailing boxes of consciousness In this book you will understand the statement as above so below and how it works in the process of downward causation when You are your Heart Mind This book will demystify the subtle energy bodies It will present how the mind can select and energize visions from the quantum field of infinite possibilities then direct the subconscious and the brain to change neurological wiring to prepare for a new holographic reality Understand clearly the key clinically proven steps in reviewing life plans past present and future to attract and create internal health and external wealth miracles Know the intricate relationship between the laws of Karma Cause Effect and Attraction Sacred Reality, Digital Simulation Enrico Beltramini, 2025-07-29 This study explores the relationship between the sacred and the virtual emphasizing the sacred as a divinely dependent consecrated space activated through ritual mediating between the profane and the holy The central argument is that the virtual is fundamentally incompatible with the ritual form a concept developed by Romano Guardini and others including Joseph Ratzinger which holds that the sacred is not merely acknowledged but made present through ritualized actions that require tangible participatory engagement Even if the virtual realm were acknowledged as real and retained both the bodily presence of the faithful and the Divine Presence the rite would still be ineffective Virtuality prevents the proper enactment of the rite rendering it ineffective At its core the ritual form is performative embodied and consecratory It requires physical presence material elements and a structured sequence of gestures symbols and words that together make the divine encounter possible Their absence in virtual spaces disrupts ritual form compromising its sacramental function **Trinity and Humanity** Uche Anizor, 2016-04-01 This remarkable and intriguing work is the only single author and introductory treatment of Colin Gunton's significant theology currently available tracing the key theological themes major contributions and continuing criticisms of his work The book highlights throughout the Trinity and the concept of humanity and mediation as critical to understanding Gunton's theology A chief aim of the book is to recommend Gunton to an evangelical audience while providing a general introduction and overview to all who are unfamiliar with his work *Journey of a Lifetime : Overcoming the Human Programming* Laura Scotton, 2021-05-28 Self love I guide you to loving yourself unconditionally
