Divine Motivation Theory:

Divine Motivation Theory Linda Trinkaus Zagzebski, 2004-08-02 Widely regarded as one of the foremost figures in contemporary philosophy of religion this book by Linda Zagzebski is a major contribution to ethical theory and theological ethics At the core of the book lies a form of virtue theory based on the emotions Quite distinct from deontological consequentialist and teleological virtue theories this one has a particular theological indeed Christian foundation The theory helps to resolve philosophical problems and puzzles of various kinds the dispute between cognitivism and non cognitivism in moral psychology the claims and counterclaims of realism and anti realism in the metaphysics of value and paradoxes of perfect goodness in natural theology including the problem of evil As with Zagzebski's previous Cambridge book *Virtues of the Mind* this book will be sought out eagerly by a broad swathe of professionals and graduate students in philosophy and religious studies

Divine Motivation Theory Linda Trinkaus Zagzebski, 2004 At the core of the book lies a new form of virtue theory based on the emotions Distinct from deontological consequentialist and teleological virtue theories this one has a particular theological indeed Christian foundation This book will be sought out by professionals and graduate students in philosophy and religious studies

The Oxford Handbook of Virtue Nancy E. Snow, 2018 The late twentieth and early twenty first centuries have seen a renaissance in the study of virtue a topic that has prevailed in philosophical work since the time of Aristotle Several major developments have conspired to mark this new age Foremost among them some argue is the birth of virtue ethics an approach to ethics that focuses on virtue in place of consequentialism the view that normative properties depend only on consequences or deontology the study of what we have a moral duty to do The emergence of new virtue theories also marks this new wave of work on virtue Put simply these are theories about what virtue is and they include Kantian and utilitarian virtue theories Concurrently virtue ethics is being applied to other fields where it hasn't been used before including bioethics and education In addition to these developments the study of virtue in epistemological theories has become increasingly widespread to the point that it has spawned a subfield known as virtue epistemology This volume therefore provides a representative overview of philosophical work on virtue It is divided into seven parts conceptualizations of virtue historical and religious accounts contemporary virtue ethics and theories of virtue central concepts and issues critical examinations applied virtue ethics and virtue epistemology Forty two chapters by distinguished scholars offer insights and directions for further research In addition to philosophy authors also deal with virtues in non western philosophical traditions religion and psychological perspectives on virtue

Purpose in the Universe Tim Mulgan, 2015-10-22 Two familiar worldviews dominate Western philosophy materialist atheism and the benevolent God of the Abrahamic faiths Tim Mulgan explores a third way Ananthropocentric Purposivism claims that there is a cosmic purpose but human beings are irrelevant to it Purpose in the Universe develops a philosophical case for Ananthropocentric Purposivism that it is at least as strong as the case for either theism or atheism The book borrows traditional theist arguments to defend a

cosmic purpose These include cosmological teleological ontological meta ethical and mystical arguments It then borrows traditional atheist arguments to reject a human centred purpose These include arguments based on evil diversity and the scale of the universe Mulgan also highlights connections between morality and metaphysics arguing that evaluative premises play a crucial and underappreciated role in metaphysical debates about the existence of God and Ananthropocentric Purposivism mutually supports an austere consequentialist morality based on objective values He concludes that by drawing on a range of secular and religious ethical traditions a non human centred cosmic purpose can ground a distinctive human morality Our moral practices our view of the moral universe and our moral theory are all transformed if we shift from the familiar choice between a universe without meaning and a universe where humans matter to the less self aggrandising thought that while it is about something the universe is not about us

The Review of Metaphysics, 2010

Incarnation Anyway Edwin Christian van Driel, 2008-08-21 This book raises in a new way a formerly central but recently neglected question in systematic theology what is the divine motive for the incarnation Throughout Christian history theologians have agreed that God's decision to become incarnate in the person of Jesus Christ was made necessary by humanity's fall from grace If Adam and Eve had not sinned the incarnation would not have happened This position is known as infralapsarian In the 19th and 20th centuries however some major theological

figures championed a supralapsarian Christology arguing that God had always intended the incarnation independent of the Fall Edwin van Driel offers the first scholarly monograph to map and analyze the full range of supralapsarian arguments He gives a thick description of each argument and its theological consequences and evaluates the theological gains and losses inherent in each approach Van Driel shows that each of the three ways in which God is thought to relate to all that is not God DL in creation in redemption and in eschatological consummation DL can serve as the basis for a supralapsarian argument He illustrates this thesis with detailed case studies of the Christologies of Schleiermacher Dörner and Barth He concludes that the most fruitful supralapsarian strategy is rooted in the notion of eschatological consummation taking interpersonal interaction with God to be the goal of the incarnation He goes on to develop his own argument along these lines concluding in an eschatological vision in which God is visually audibly and tangibly present in the midst of God's people

Theory of Motivation Robert C. Bolles, 1975 Philosophia reformata, 2005 **Reason & Religious Belief** Michael L.

Peterson, William Hasker, 2009 The most comprehensive work of its kind Reason and Religious Belief now in its fourth edition explores perennial questions in the philosophy of religion Drawing from the best in both classical and contemporary discussions the authors examine religious experience faith and reason the divine attributes arguments for and against the existence of God divine action Reformed epistemology religious language religious diversity religion and science and much more The fourth edition adds a critical new chapter on the ontological status of religion and the nature of religious claims It also features revised treatments of omnipotence miracles and providence and updated suggestions for further reading

Persistent Problems in Modified Divine Command Theory Brandon Trey Jackson, 2017 I argue that there are persistent problems in contemporary modifications of divine command theory Divine command theory states that God's commands are moral obligations only because he commands them Modified divine command theories attempt to add to or amend the justification for God's commands being moral obligations The problem is that they aren't successful at escaping the Euthyphro dilemma which states the following of God's commands they are either a moral obligations because they are commanded by God or they are b commanded by God because they are moral obligations Modified divine command theories attempt to navigate between these two alternatives but they fail to do so successfully This becomes evident when we see how these theories solve what I will call the arbitrary worry the worry that on divine command theory we have no guarantee that God's commands will not be arbitrary or worse despotic Two contemporary attempts to modify divine command theory show this to be the case Robert Adams Finite and Infinite Goods and Linda Zagzebski's Divine Motivation Theory Adams solves the worry by positing that God must be loving to issue obligatory commands however in doing so he posits value independent of God namely the value of relationships and lovingness Zagzebski solves the worry by positing that God's nature and thus his motivations are good which generate our obligations However she identifies goodness only with whatever God's nature happens to be meaning that whatever motivations he is capable of having will generate obligation for us and we don't know

the extent of his nature or what motivations he is capable of having Adams thus lands on the second horn of the dilemma and Zagzebski on the first
