Evil Connection II Collision Of Fate Volume 2:

Secularism and the Pursuit of Transcendence, Volume II Stanley E. Porter, Wendy J. Porter, 2025-02-19 We live in a secular age or so we have been told Nevertheless the Christian church strongly believes that we still experience and in fact are surrounded by acts of transcendence encounters with God that often defy imagination and explanation And yet we do try to explain such phenomena whether theologically experientially biblically historically philosophically literarily or even or especially artistically These two volumes are more than just papers from a major conference on secularism and the pursuit of transcendence held at McMaster Divinity College in Hamilton Ontario They contain genuine attempts by people deeply engaged with their secular surroundings to explain what we mean by transcendence Transcendence has been a longstanding topic among the best thinkers of this and previous ages and the same is true for these volumes which include contributions by Charles Taylor Robert Wuthnow Merold Westphal and Christina Gschwandtner but also by a wide range of others who address the question from divergent vantage points The responses vary as much as the orientations of those involved in the pursuit of defining not only what it means to live in our secular age but to be involved in the pursuit of transcendence or even to perceive the Transcendent's pursuit of us

Theology of the Old Testament Gustav Friedrich Oehler, 1883 Gustav Friedrich Oehler was an Old Testament scholar and professor at Tübingen in Germany At this time he was among the foremost proponents of theological conservatism with regard to the Old Testament rejecting the rationalism of Schleiermacher and the liberal school arising from his work For Oehler the Old Testament is an account of real history and divine revelation rather than a product of mere human development This two volume set published after Oehler's death by his son in 1874 contains the contents of Oehler's three decades of lectures on his area of expertise This early work of Biblical Theology explains the progressive revelation of divine truths from the first chapters of Genesis through the end of the Old Testament It contains both a history of God's people and an examination of the theological convictions of the Old Testament authors as moved by the Spirit
