Doing Your Research Project Judith Bell, 1999 Why do ethnic groups adopt violent means In the 1990 s ethnicity emerged as the principle source of organized violence around the world Ethnic wars were no longer internal conflicts between substate actors instead they challenged state sovereignty and taxed

the international community's ability to respond. Efforts to understand ethnic conflict remain divorced from the study of systemic change and the declining authority capacity and legitimacy of weak multiethnic states. This work proposes that the phenomenon of ethnic violence must be understood through a multilevel approach and that finding a solution to ethnic violence is possible only if we have a clear understanding of the sources that spark such violence in the first place. *The Three Images of Ethnic War* identifies the causes of ethnic war at three levels of analysis: the group, the state, and the international system. These are the three images of ethnic war. This book places the outbreak of violence within context of the state and the international system in which the violence unfolds. Hanlon examines three violent ethnic wars in Yugoslavia, Nagorno Karabakh, and Iraq. Yugoslavia's violent ethnic wars, the war over Nagorno Karabakh, and the violent conflict between Kurds and Arabs in Iraqi Kurdistan demonstrate that ethnic violence is a complex and multifaceted occurrence. Hanlon argues that the numerous reasons why groups adopt violent means can only be understood through a multilevel framework of the three images of ethnic war and the interrelationship among them.

Preach the Word Myles MacBean, 2019-11-11 How should we help equip the church leaders of Africa today There remains a well documented lack of theologically sound Bible centric preaching in Sub Saharan Africa The majority of sermons are preached by untrained or undertrained church leaders Following a practical theology praxis this book develops a conceptual framework for the evaluation of existing alternative approaches to grassroots preacher training It also proposes broad principles for effective preacher training and offers a practical solution The 20th century had seen the Christian church in Africa grow 36 fold to 360 million This amazing growth is arguably the largest religious change in human history in such a short period It has shifted the focus of Christianity from North to South This rapid growth is debatably considered by some missiologists and theologians to have resulted in an African church a mile wide and an inch deep That is a church of great size but lacking in spiritual depth The rapid growth has led to insufficient numbers of trained leaders being available to oversee their congregations Most leaders are unpaid Untrained or undertrained leaders have an inadequate knowledge of scripture and lack understanding of its interpretation They also lack the skills they need to communicate its truths Even so they preach up to 90% of the sermons in rural Africa Despite a tremendous hunger for training among many of those preachers traditional college based theological education cannot keep up with the demand for trained pastors and preachers in an affordable or culturally appropriate manner
