Cheng, 2012-03 This book provides a unique synthesis of liberation queer and postcolonial theologians over the last few decades within a unified theological framework It Will advance the inclusion of LGBT people within church and society This book is a useful resource for all people who struggle to make sense of the traditional Christian doctrines of sin and grace in the 21st century Throughout the history of Christianity lesbian gay bisexual and transgender LGBT or queer people have been condemned as unrepentant sinners who are in dire need of God s saving grace As a result of this condemnation LGBT people have been subjected to great spiritual emotional and physical abuse and violence This issue has taken on a particular urgency in light of the horrific string of suicides over the last year of young LGBT people who were subjected to harassment and bullying by their classmates Cheng argues that people need to be liberated from the traditional legal model of thinking about sin and grace as a violation of divine and natural laws in which grace is understood as the strength to refrain from violating such laws Rather Cheng proposes a Christological model based upon the theologies of Irenaeus Bonaventure and Barth in which sin and grace are defined in terms of what God has done for us in Jesus Christ Publisher *Feminist Collections* ,2015 **Sociology of Sexualities** Kathleen J. understudied in our discipline Discourse about sexuality and the discourse of sexuality surround us circulating in the news media on the Web in conversations and in the very languages we use to articulate our interactions with others and our understanding of ourselves It forms a core set of complex discourses through which we approach make sense of and construct a variety of meanings politics and identities In *Literacy Sexuality Pedagogy* Jonathan Alexander argues for the development of students sexual literacy Such a literacy is not just concerned with developing fluency with sexuality as a hot topic but with understanding the intimate interconnectedness of sexuality and literacy in Western culture Using the work of scholars in queer theory sexuality studies and the New Literacy Studies Alexander unpacks what he sees as a crucial if often overlooked dimension of literacy the fundamental ways in which sexuality has become a key component of contemporary literate practice of the stories we tell about ourselves our communities and our political investments Alexander then demonstrates through a series of composition exercises and writing assignments how we might develop students understanding of sexual literacy Examining discourses of gender heterosexuality and marriage allows students and instructors a critical opportunity to see how the languages we use to describe ourselves and our communities are saturated with ideologies of sexuality Understanding how sexuality is constructed and deployed as a way to make meaning in our culture gives us a critical tool both to understand some of the fundamental ways in which we know ourselves and to challenge some of the norms that govern our lives In the process we become more fluent with the stories that we tell about ourselves and discover how normative notions of sexuality enable and constrain narrations of identity culture and politics Such develops not only our understanding of sexuality but of literacy as we explore how sexuality is a vital if vexing part of the story of who we are
