Full Version Inherit The Wind Script:

Inherit the Wind Jerome Lawrence, Robert Edwin Lee, 2000 Presents the script of the 1950s play loosely based on the events which took place in Dayton Tennessee during the Scopes Trial in July of 1925 which opened the debate over the teaching of creationism and evolution

The Scopes Trial Randy Moore, Susan E. Brooks, 2022-12-16 The 1925 trial of John Scopes in tiny Dayton Tennessee remains a defining moment in American history This trial of the century a media event before the term was coined addressed issues that still affect our society today such as control of the school curriculum the ongoing tensions between science and faith in public schools and the ramifications of teaching evolution and human origins This book is the first encyclopedic treatment of the Scopes Trial The text draws on media reports family interviews and Scopes personal correspondence providing new information and perspectives The book includes previously unseen photos and information about Scopes and his relatives as well as insights about the trial s instigators participants and issues all organized in a concise and easily accessible format

The Other Side of the Scopes Monkey Trial Jerry Bergman, 2023-10-26 The enormous amount of literature on the Scopes Trial focuses on the religious elements of the trial It almost totally ignored the importance of racism as taught in the text that Scopes used to teach biology Bryan was not concerned about evolution in general but specifically human evolution He believed that Darwin s theory as applied to humans encouraged the oppression of certain oppressed groups Taking evolution s philosophy to its logical conclusion meant justifying survival of the fittest in social matters This philosophy he learned from his extensive reading about WWI was a major factor influencing the Germans to fight in the first World War Furthermore Bryan believed the citizens of Tennessee had a right to determine what their children were taught in the public schools Another fact that is rarely mentioned is the main fossil evidence cited in the trial documents and the press in support of human evolution has been discredited by evolutionists including Neanderthal man Piltdown man Java man and Nebraska man Scopes was not a biology teacher but rather taught math His college degree was not in biology but law He was not put on the stand to testify in his trial probably because he never taught evolution and could not honestly answer questions about teaching it This book covers the so called trial of the century telling the real story of a sham brought on by the ACLU to further their political and anti Christian goals
