Fire In The Night The Piper Alpha Disaster:

Fire in the Night Stephen McGinty, 2017-01-26 The horrific true story of the world's worst offshore oil disaster Fire in the Night Stephen McGinty, 2008 **The Waves Burn Bright** Iain Maloney, 2016-05-19 In 1988 the Piper Alpha oil platform off the coast of Aberdeen Scotland exploded killing 167 men The Waves Burn Bright is a deeply affecting sensitive exploration of its devastating aftermath on one family Carrie Fraser is 16 when the disaster occurs her father Marcus one of the survivors As the narrative moves between past and present the trauma blows open existing fractures tearing the family apart In adulthood and after many years living abroad Carrie now a respected volcanologist is returning to Aberdeen to deliver a controversial academic paper Carrie and her father are estranged partly due to his post traumatic stress and related alcoholism a legacy of Piper Alpha Will a reconciliation be possible or will the aftershocks of a tragedy that occurred 25 years before continue to drive father and daughter apart A cauldron of a book bubbling with anger and magma which might at any moment spill over and bring further devastation It is both particular to this tragedy in 1988 but also universal a compelling story exploring how a father's trauma sends shock waves through a family changes the pattern of lives particularly his daughter's and makes love risky However as well as being about damage and running away it is also about healing Linda Cracknell author of *Call of the Undertow* and *Doubling Back* it wasn't so much that Maloney's characters had made an impact on my world but that I had entered theirs simply a cracking good read Alison Miller author of *Demo*

Fleet Air Arm Boys Steve Bond, 2022-09-08 Helicopters have been going to sea with the Royal Navy's Fleet Air Arm for over 70 years Initially used for search and rescue SAR duties from aircraft carriers the rapid development of both the helicopters and service experience resulted in them taking on the vital anti submarine and later anti ship attack roles The 1956 Suez campaign saw the first operational use of Whirlwind helicopters for the insertion of troops by air into a battle zone a capability which was expanded with more helicopters such as the Wessex Sea King and today's Merlin Through their vital role in the 1960s Indonesian Confrontation the Commando helicopter force became universally referred to as the Junglies It is often said that if either of the 1982 Task Force aircraft carriers had been lost the Falklands War could not have been won The same would surely have been true without helicopters Their vital tasks including inserting Special Forces behind enemy lines protecting the Task Force from Exocet missile attack and recovering wounded troops whilst under enemy fire are rightly hailed as being instrumental At home the essential SAR effort by both the Royal Navy and their RAF counterparts has resulted in incredible stories of saving lives against the odds Royal Navy destroyers and frigates have also long since benefitted from having their own helicopter Flight aboard Frequently operating in extremes of weather flying a Wasp Lynx or today's Wildcat from and back to a heaving deck is every bit as risky as flying fixed wing aircraft off the carriers of old Once dismissed as a novelty the helicopter has more than proved itself Indeed for ten years until the arrival of the Queen Elizabeth class aircraft carriers the Fleet Air Arm's operational force was entirely rotary wing Today's Merlins and Wildcats with their

dedicated aircrew maintenance and support staff continue to demonstrate just how vital an asset the helicopter has become Here are the words of the men and women themselves skillfully brought to life by Steve Bond and profusely illustrated in color and b w
